Christmas Greetings
From the War Prisoners Aid.
Y.M. CA.

Glory to God in the highest, and
on earth Peace, Good will
toward men
Christmas - 1944.

HAT a host of things Christmas means to all of us — the green and red of holly, shops all decorated with their most attractive wares, Christmas trees with all sorts of ornaments in lighted windows at night or set out on snowy front lawns, or the myriad lights of big municipal trees in public squares; Christmas cards and Christmas dinners and Christmas greetings. No visitor from another planet, dropping down in any part of the United States at Christmas time could fail to realize, from purely external evidence, that he had arrived at a very special season.

TO most of us, Christmas means a special spirit — what more « family » occasion than the birth of a child! The Babe was born in Bethlehem because at that time Caesar had ordered a reunion of all the families there. No wonder that Christmas is particularly a family holiday — the day of all days in the year when families plan to be together, when the boys come home to the fragrance of Christmas cooking from their jobs in town or from the training camps; when each member of the group tries to embody the spirit of the season in specially chosen presents for the others — the day of gifts and greetings, of family and friends, a spirit of kindness towards others which no other festival quite equals.

OST of us, too, realize that the source and basis for this unique and wonderful spirit is a few simple lines from an old book :

... And it came to pass in those days, that there went out a decree from Caesar Augustus, that all the world should be taxed. And this taxing was first made when Cyrenius was governor of Syria. And all went to be taxed, every one into his own city.

And Joseph also went up from Galilee, out of the city of Nazareth, into Judea, unto the city of David, which is called Bethlehem, because he was of the house and lineage of David; To be taxed with Mary, his espoused wife, being great with child.

And so it was that when they were there, the days were accomplished that she should be delivered. And she brought forth her first-born son, and wrapped him in swaddling clothes and laid him in a manger; because there was no room for them in the inn.

And there were in the same country shepherds abiding in the field, keeping watch over their flock by night. And lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them, and they were sore afraid.

And the angel said unto them, Fear not: for, behold, I bring you good tidings of great joy, which shall be to all people. For unto you is born this day in the city of David, a Saviour, which is Christ the Lord.

And this shall be a sign unto you: Ye shall find the babe wrapped in swaddling clothes, lying in a manger.

And suddenly there was with the angel a multitude of the heavenly host praising God, and saying: Glory to God in the highest, and on earth peace, good will toward men.

And it came to pass, as the angels were gone away from them into heaven, the shepherds said to one another, Let us now go even unto Bethlehem and see this thing which is come to pass, which the Lord hath made known unto us. And they came with haste, and found Mary and Joseph, and the babe lying in a manger.

And when they had seen it, they made known abroad the saying which was told them concerning this child. And all they that heard it wondered at these things which were told them by the shepherds. But Mary kept all these things and pondered them in her heart.

And the shepherds returned, glorifying and praising God for all the things that they had heard and seen, as it was told unto them. »

ONE simple birth among millions of others that year and all the years since, but an event which more than any other has shaped human history.

IN how many ways that first Christmas resembled those of today! Everyone in the story offered some gift — The unknown host who provided space in his stable — the shepherds who had nothing to bring but their adoration — the magi with their gold and frankincense and myrrh.

SURELY, the essence of the Christmas spirit is giving — giving whatever a friend may need, advice, help, a friendly greeting, some material token — at all events the best we have — in memory of God's gift to man on that first Christmas. Not one of us but has something precious he can share with a friend; everyone of us has a special place in the hearts and thoughts of his family. And each of us has treasures of character and qualities of usefulness which must be preserved, intact, for the great day when once more we can have Christmas at home.

THE War Prisoners' Aid of the YMCA joins all your other friends in the sincerest good wishes for Christmas and the coming year.

"Let no man believe that there is a stigma attached to having been honorably taken captive in battle. Only the fighting man ever gets close enough to the enemy for that to happen. That he is not listed among the slain is due to the infinite care of Providence. Be proud that you have carried yourselves as men, in battle and in adversity. You will be enriched thereby"

Cooking as done by a Prisoner of War

Some of the concoctions I've made and seen made could never be found except in some hobo jungle. Not all of our culinary experiments were a success. Some were delicious, some barely edible and others complete failures, but eaten nevertheless because of the food situation. The majority of my fellow-inmates, including myself, fancy themselves as cooks and freely pass on their special receipts to the less ingenious members of the group. This page I'm going to devote to some of the plain and fancy things we've cooked.

1. A half and half mixture of cocoa and coffee, with the addition of about $\frac{1}{2}$ pt. sweetened condensed milk per each 1 $\frac{1}{2}$ quarts of drink.

2. Three tablespoons cocoa, $\frac{1}{2}$ pt. condensed milk added to 1 $\frac{1}{2}$ quarts of cooked oatmeal.

3. German bread, naturally very heavy, is much more digestible if fried in the fat of some meat or in margarines. Nestle's condensed milk makes a good spread.

4. Mustard powder (1 teaspoonful) added to dried egg powder (8 tablespoonsful) before cooking takes away the powdered egg taste.

5. Our standard cereal - 1 pt. milk into which you put 2 K-ration biscuits crumbled, a handful of stewed raisins and, if desired, about a cup full of bread chopped very fine and fried hard in margarine. Allow to stand overnight.

6. Bread pudding - $\frac{1}{2}$ lb. raisins; $\frac{1}{2}$ prunes, $\frac{1}{4}$ loaf of bread chopped fine, 1-tablespoon powdered coffee, 3 tablespoonful sugar mixed into 1 pt. thick milk paste and boiled for 20 minutes. While hot sprinkle grated chocolate over the top.

7. Pie - For the crust break up 6 K-ration biscuits as fine as possible mix in 2 tablespoonsful margarine and enough milk paste to hold it together. Spread it evenly over pan. For the filling a variety of things are used; the most popular of which is a combination of 1 lb. raisins and 1 D-bar stewed together. While hot, pour into crust and put on fire for about 15 minutes. Allow to cool. Melt a little chocolate, add milk powder and water, beat till frothy and put it on pie as meringue.

8. With powdered milk you can make a cream in which to cook corned-beef, or potatoes.

9. Mix German butter with peanut-butter and it will go twice as far.

10. When we had British Red Cross packages all kinds of meat and vegetable combinations were tried. Hot cakes could be made from Yorkshire Pudding Powder + dried eggs.

11. Make jam by stewing raisins, then beating them to a pulp. Add $\frac{1}{2}$ lb. of orange powder and boil till thick.

Yorkshire Pudding (recipe by Chris Roncoroni) Beat two eggs in a small amount of milk. Add 1 cup flour, $\frac{1}{2}$ teaspoon Baking Powder. Beat at least 15 minutes; long, aerial strokes. Add milk till solution is just pourable. Beat again. Melt $\frac{1}{2}$ cup butter or use $\frac{1}{2}$ cup of the fat from the meat being cooked. Pour this in bake pan before pouring in batter. Bake in hot oven. (To make "Toad in-the-hole" prick 6 or 8 sausage links and drop them in batter before baking) Serve hot with the roasted meat. GOES especially well with beef.

And the stoves that were used to do it

Someone once said that the American Army could never be beaten, because it was over-stocked with ingenuity. That quality was demonstrated in many places and in many ways but never any better than in the making of stoves on which to cook the food from our Red Cross parcels. They ranged anywhere from a hole in the ground to an elaborate 3-can affair, and came in assorted sizes and shapes. Those of us who have the simpler of minds and whose tendencies do not lean toward the mechanical side, contented ourselves with a hole in the ground with two scooped out places for air or a #10 can with a few holes punched in the side. They are known as "heatless smokers" and faithfully live up to the name. Then those of us who have a little more sense construct the "undecided" type. Sometimes they burn and sometimes they don't. One such is made from a British biscuit tin 2" wide by 3" thick by 10" long. Cut one whole side out and lace wire across it. Feed it from the open end and be prepared to blow. One fellow made one of those, packed mud all around it and put a piece of tin over the top instead of wire. He cut the ends out of two small cans, fastened them together and set them on the back of the stove to act as a chimney. Packed mud once more around the cracks and started his fire. It was a good idea, but it wasn't any more successful than the plain ordinary kind. But the ones that take first prize are the 3-can affairs. These were perfect examples of master craftsmanship. Starting from the bottom can here's a description. A large 1 lb. powdered milk can is the base. Cut a hole about 3" long by 1" wide near the bottom. If you want you can punch a lot of holes in the bottom of the can for more draught. The second can has both ends cut out. Across one end put a network of wire and fasten it to the bottom can. The third can has both ends cut out. Cut vertical slits 1 $\frac{1}{2}$ " wide all the way around the can. Fasten it to the second can and you have what looks like nothing you've ever seen, but which certainly does the work. The fire is in the center can, fed thru the slits in the top can. The wire network is the grate. The bottom can holds the ashes and furnishes the draught. Around the middle can on the outside string some wire and you have a place to toast bread. Many variations of the above types were made but it would be repetition to describe them. But in every case the only tools were knives, spoons and a stone.

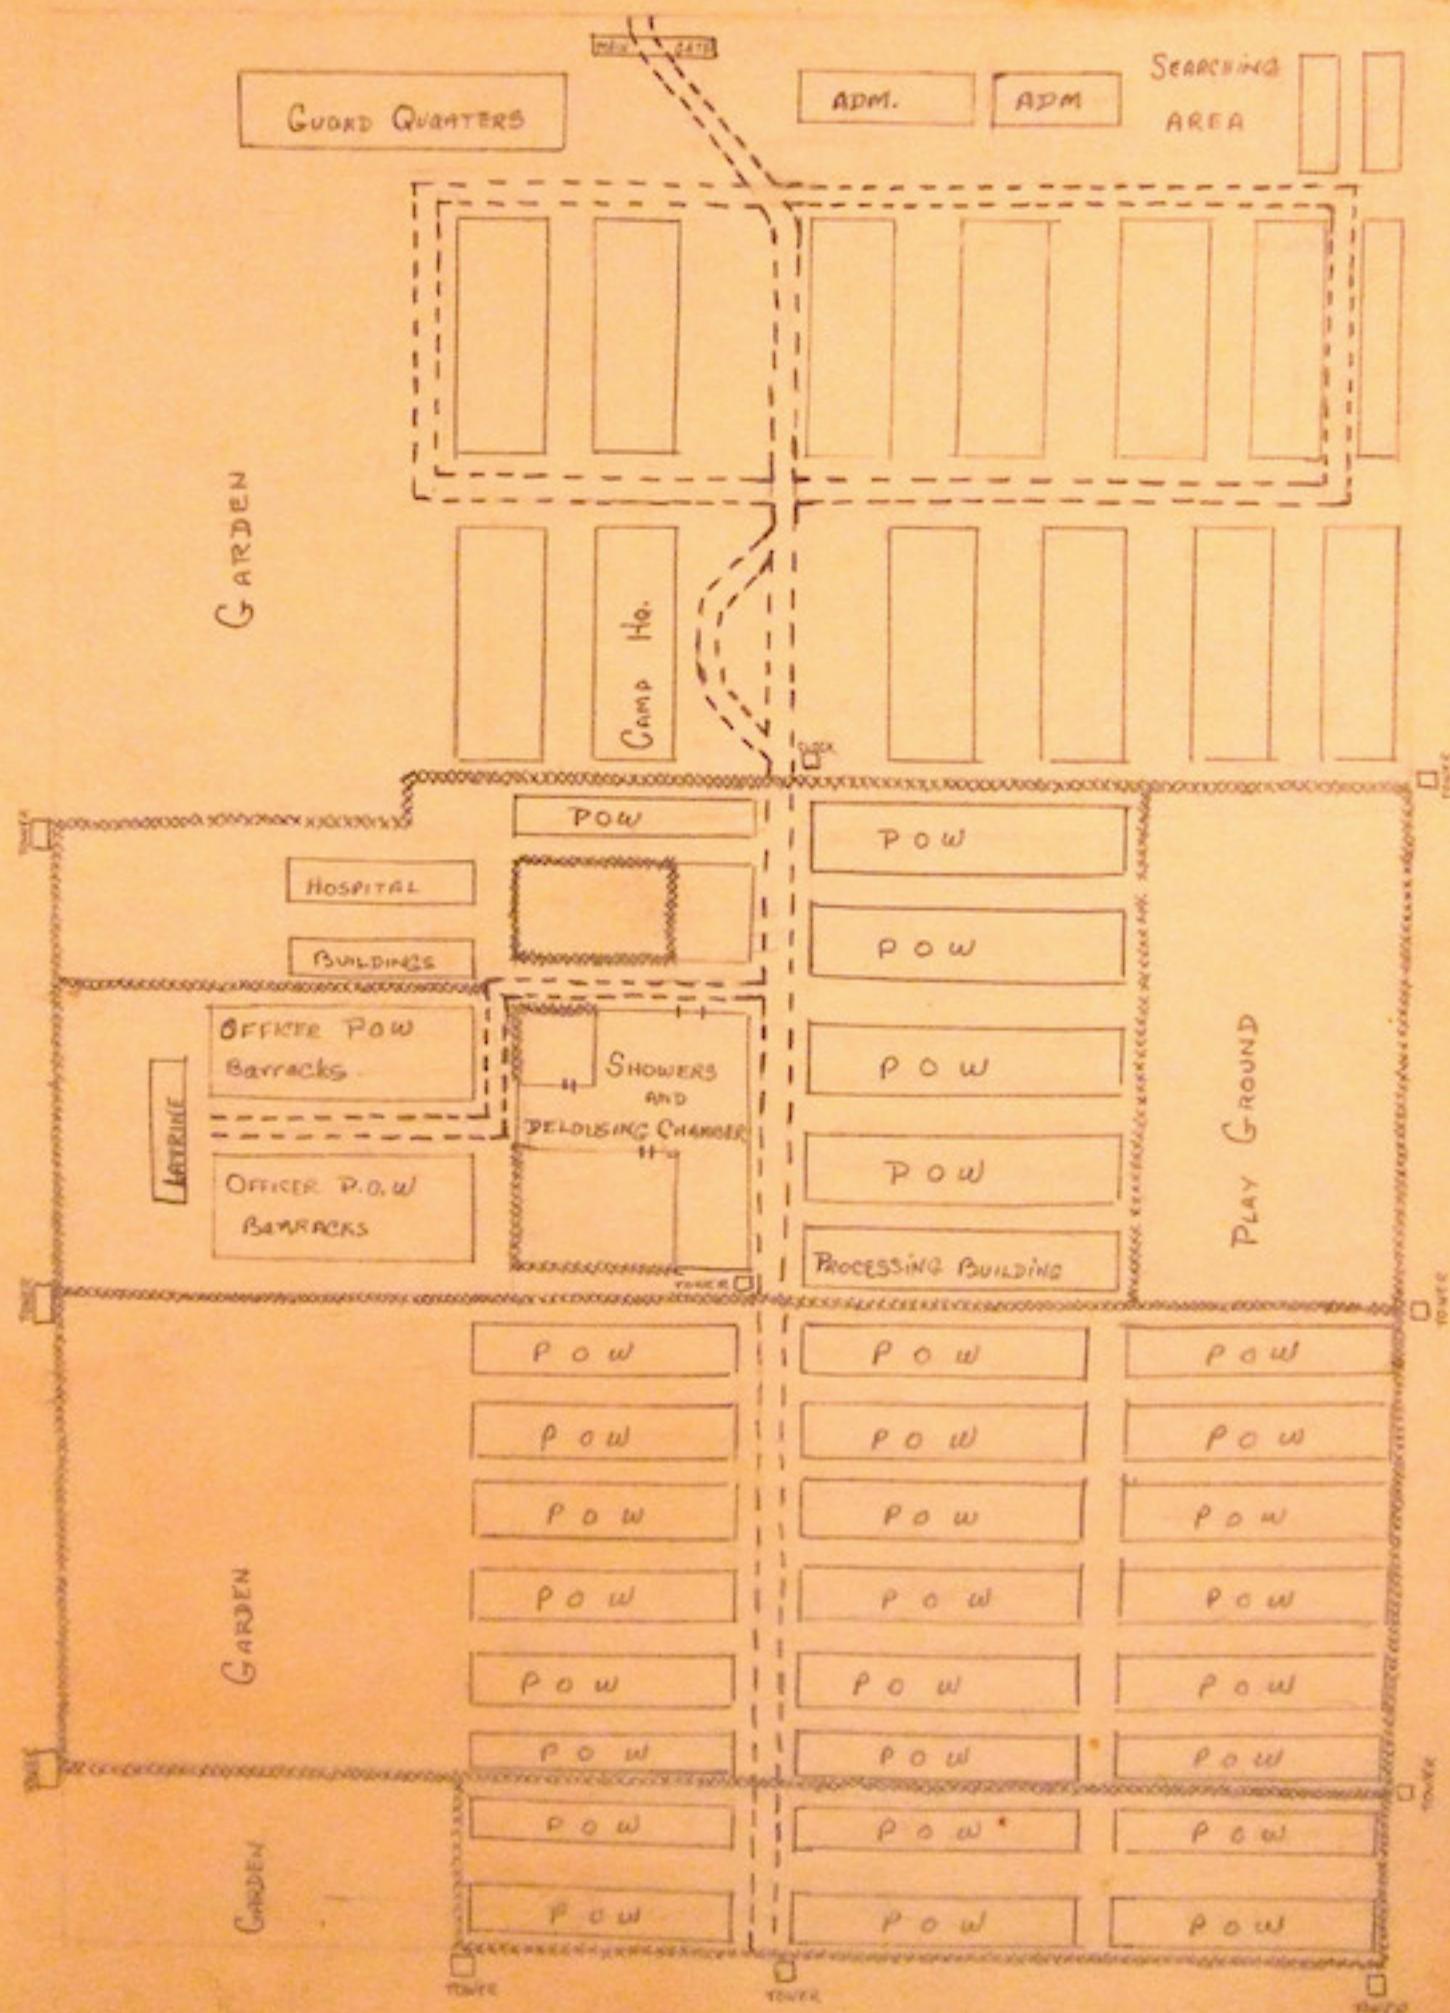

The above account of stoves was written too soon. Since then I've come across several of the blower type; made so that by turning a small crank, a forced draught is caused. This eases wear & tear on the lungs. Stoves made from Jerry 2-gallon jam tins with Klim cans for a fire, were also much in evidence.

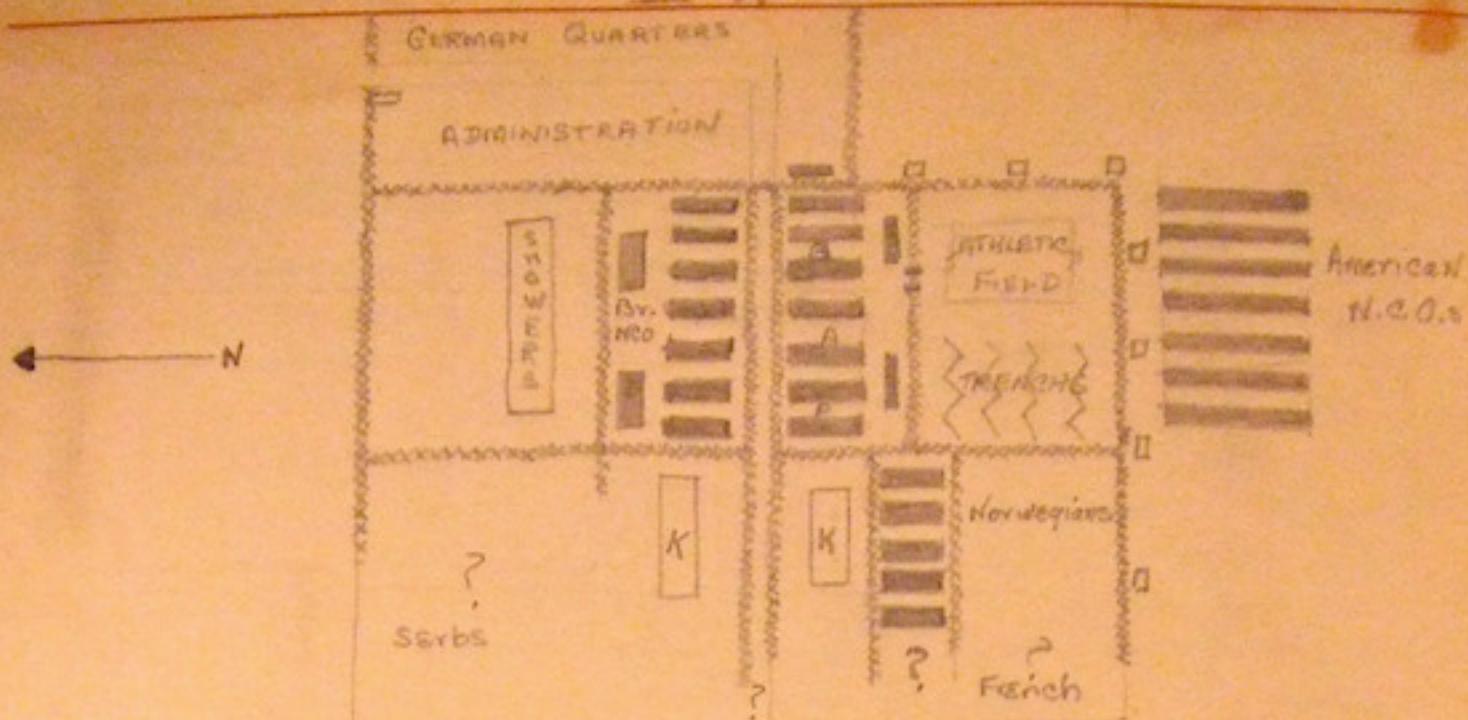

STALAG XII A

located near Limburg, Germany a few miles from the Rhine Valley between Coblenz and Frankfort. It's a rather large place and has a probable capacity of about 10,000 men. While we were there it was being used as a Dulag for American, British, Canadian and other Allied Officers. In peace time I imagine it was a pleasant place but barbed wire spoils even the most beautiful surroundings. We didn't get to see the whole camp; it was too large but the part we saw looked fairly modern. Everything except the plumbing, which can't be compared in any way to ours at home. Construction is mostly of cinder-block with tarred roofs. Inside the barracks the floors are of brick and the ceiling peculiarly enough was made of pressed straw. Had there been any heat in the building at all, it would have been good insulation. Each barracks was equipped to hold 300 men sleeping in triple-deck beds. There was one toilet for night use inside but about 40 outside. Washing facilities consisted of two rooms inside with 24 shower-heads. Cold water only. There were plenty of windows (barbed-wired). Outside, our exercise area was about 45 yds long by about 30 yards wide. Slit-trenches were provided in case of AR. Walls of wire surrounded the whole camp with guard towers spotted here and there.

Our life there could have been pretty monotonous had we allowed ourselves to get in a rut. All sorts of strange hobbies popped up. One day was pretty much like another. We had two scheduled formations for roll-call, one at 0900 and one at 1800 except on Saturdays & Sundays when the evening call was at 1800. The rest of the day is pretty much our own. Breakfast is 0730, lunch 1130, supper 1730 and the food is brought to us by 7 American soldiers acting as orderlies. We got $\frac{1}{4}$ loaf of bread on 4 days of the week and $\frac{1}{5}$ loaf of bread the other 3. One ounce of butter per day, one tablespoonful of sorghum. When we got Red Cross Parcels that supplemented our rations nicely. Soup, either cabbage or pea, was our usual meal. Tea, made from herbs was plentiful and was sweetened with saccharin. Occasionally we got some coffee. Wood to cook with was issued every other day. When we arrived we got towels and mess equipment. A German M.O. visited us about once a week, altho we had a couple American M.O. with us. Their supplies were limited. We had a library consisting of about 50 dog-eared books. A few were good but a lot were of the "History Behind Geography" type. Lights were extinguished at blackout time.

The S.A.D. was allowed an interview with the German Commandant whenever it could be arranged. He saw him twice while we were there and in each case the conditions discussed during the interview were corrected. The attitude of the majority of the Germans in camp was as befits those who deal with P.O.W. With the exception of a few, all the men were courteous to us. Just the same, it wasn't our permanent camp and we were glad to go.

Above is a very rough sketch of what I could see of Stalag III A near Luckenwalde, Germany. The first group of American officers arrived here from Shubin on 1 February 1945. The city of Luckenwalde is about 22 miles South of Berlin and has a population of 40000-50000. It is just like any other German town we've seen; fairly modern but poorly paved. The camp is 1½ miles from the center of town; just over a slight rise which prohibits us from seeing the town from camp.

They tell us this camp was used during the last war for political prisoners. Certainly it has been used continuously in this one as evidenced by the names & dates we see scratched on the various walls. Nearly every language is represented. Camp capacity is 30000 but we've exceeded that. Some (2000) American NCO's are living in tents. Represented among the kriegs here, is Norway, France, England, Yugoslavia, Russia, Poland, Italy and the U.S; both Officers & men.

Routine here is the same as any other camp. Two Appels are held daily; 0830 and 1630. Living quarters are cramped; 180 men per barracks, sleeping in triple-deck wooden bunks. For exercise we have a couple softballs & bats and some soccer equipment. We make as much use of these as our physical condition will allow. Otherwise we just walk around the compound, or do setting-up exercises.

Until March 1st, food conditions were pretty bad. But then a shipment of 150,000 Red Cross parcels got thru and eased it some. At present (22 March) we have 2½ issues left. We are expecting to be moved from here at any time now. Rumor says Nuremberg

SONGS

'Twas a cold winter evening, the guests were all leaving
 O'Reilly was closing the bar
 When he turned round and said to the lady in red
 "Get out, you can't stay where you are"
 She wept a sad tear in her bucket of beer
 As she thought of the cold walk ahead
 When a gentleman dapper, stepped out of the crapper
 And these are the words that he said,
 Chorus.

"Her Mother never told her
 The things a young girl should know
 About the ways of fancy, men,
 And how they come and go
 The years have taken her beauty
 And sin has left it's sad scar
 So think of your Mother & Sister, boys
 And let her sleep under the bar."

Landlord, fill the flowing bowl until it doth run over
 Landlord, fill the flowing bowl until it doth run over
 For tonight we'll merry, merry be,
 For tonight we'll merry, merry be,
 For tonight we'll merry, merry be,
 Tomorrow we'll be sober.

Now the man who drinks pale ale and goes to bed quite sober
 The man who drinks pale ale and goes to bed quite sober
 Does a very foolish thing
 Does a very foolish thing
 Does a very foolish thing
 He'll die before October.

But the man who drinks stout ale and goes to bed quite mellow
 The man who drinks stout ale and goes to bed quite mellow
 DOES as he ought to do
 Does as he ought to do
 Does as he ought to do
 He'll die a right good fellow.

The girl who steals a kiss, then runs to tell her Mother
 The girl who steals a kiss, then runs to tell her Mother
 Does a very foolish thing
 Does a very foolish thing

Does a very foolish thing
She'll never get another.

But the girl who steals a kiss and comes back for another
the girl who steals a kiss and comes back for another
DOES as she ought to do
DOES as she ought to do
DOES as she ought to do
She 'll soon become a Mother

landlord, etc.

It was only an old beer bottle
Floating o'er the sea
It was only an old beer bottle
Came drifting in to me
And in it was a message
With these words written on
"Whoever finds this bottle
Finds the beer all gone."

During our stay at Stalag XIIA, we often put in the long hours of the evening by singing. Alderton, Swain, Oker, Powell, Smitty, Carliss, Bova, and a couple more of us would sit around a table after the lights were extinguished and entertain (?) the rest of the barracks, with as wide an assortment of old and new that I've ever heard. Some were hymns, some English drinking songs, some bar-room ballads, some pretty risqué ones and some popular. Often it was midnight before the little gathering broke up. Those who couldn't sleep thru so much noise were just out of luck. Following is an incomplete list of some of the songs:

Today, Sunday 8 October, 1944, the All-Star Exhibition Touch-Football game between the Redskins and the Bears was played on Shubin Field before a crowd of 750 American Officer Ps. and Ofplag 64 and about a dozen German Soldiers who probably wondered what it was all about. The setting was much the same as you would find at any game at home. The band, complete with Drum Majorette, was on hand and cheering sections backing both teams made the usual noises so familiar to a football game in our favorite stadia at home. The day was perfect; sunny, but not too warm. The field itself, altho only sixty yards long by forty yards wide and of a sandy nature instead of grass, was passable. For the occasion, new goal posts had been erected and decorated with the only available crepe paper, red and green. They resembled giant candy sticks. The playing surface had been dragged and lined-off during the morning. Rumor has it that Powdered Milk was used for lime, but considering the value of any food, I have my doubts.

About 1330 the crowd assembled and each person joined the group supporting his favorite. For the Redskins, pieces of ~~red~~ ribbon were worn and for the Bears, blue. Pre-game betting (D-Bars, Cigarettes, Red Cross parcels, etc.) had made the Bears the favorites, so the number of blue streamers was greatly in the majority. Two officers appointed themselves cheer-leaders for the Bear rooters and under their able direction, those rooters performed notably in the long-established manner. One officer took charge of the Redskin rooters and to him goes the honor of composing spontaneously the cheer that brought down the house, "Ein, zwei, drei, kaput, Come on Redskins, block that boot."

Just prior to game time the band played a few College songs and to make the picture complete, one of the Officers, dressed as only a drum majorette would dress, came out on the field and gave an exhibition of baton-twirling. He dropped the baton during some of his more difficult routines, but that was due to lack of practice because there is no place for that art in the Army, and the crowd appreciated his efforts. Periodically during the game and between halves the band entertained us. All the numbers were played from memory so we excused an occasional sour note.

The game itself was of regulation length and excellently played considering the physical condition of the participants. The Redskins kicked-off promptly at 1400 and the much-talked-of battle was on. A good passer and a couple good receivers combined to give the Redskins two touchdowns in the first quarter. Neither try for the extra point was good. This 12-0 score so early in the game was a blow to the heavily-favored Bears and they never quite recovered. During the second quarter, the Redskins pushed across two more touchdowns and made both conversions. The Bears came to life near half-time to score once but they failed to convert. The third quarter was one of free-scoring on both sides as both teams crossed three times. This brought back some hope to the Bear backers but in the last period the Bears passing game broke down while the Redskins added another seven points. Final score was Redskins 51 - Bears 25 but was a much better game than the score indicates.

This game was played on Shubin Field in Oflag 64 on Sunday 15 October 1944. The day was cloudy and cold with occasional sprinklings of rain. It did not excite the enthusiasm of the camp as the football game had done but there was a goodly crowd there. The Celtics got off to a fast start and Barrett scored twice in the first quarter on beautifully set up shots by Bingham. The Rangers had many scoring opportunities but couldn't seem to hit. During the second quarter Barrett got two more, one on a set-up and another off the Ranger full back. At half-time the score was Celtics 4, Rangers 0. The Rangers broke into the scoring column midway in the 3rd Quarter as Geddes shot one in from the ten-yard line. No more scoring that period. At the four minute mark of the last period St. Sauveur put one in from the 20 yard line. Shortly after, in a mixup at the goal, the Rangers were awarded a penalty which Geddes made good by a powerful shot which Goalie Martin didn't touch. Alderton scored from the 15-yard mark near the end of the game on a hard drive past the Goalie. The final whistle blew as both teams were desperately trying to break the deadlock. The game was well-played and very clean. Only one penalty was called and there weren't over six free kicks.

Final Score - Rangers 4 Celtics 4

At the end of September 1914, a soccer league was formed, with 9 teams participating. We used a 9 man team instead of the usual 11 man one. The Passon Team was put in my charge. Hello Dot,

Sig and I (that's what we call him here, I hope you won't mind) got to feeling that it was hardly fair to you for me to know you so well without your knowing me, so a result I'll attempt to introduce myself to you so that we can rightfully consider ourselves acquaintances of long standing even before we actually meet. I am really counting on meeting you; some day, I hope, in the near future! In fact Sig and I have already made tentative plans for some type of get-together when we both get back. We do a lot of day drinking here and in my mental meanderings I've pictured you and your husband calling on us, that's my wife, and me. I can assure you a most cordial welcome, not least of which will be a satisfying abundance of good food (and that's not at Sig's insistence alone), so come prepared with an insatiable appetite to consume the best Canada has to offer, in the largest quantities desired. I can also guarantee that for once you won't have the worries a good housewife has of planning and preparing the meal an ex-P.O.W. is certain to demand.

Now to be fair to my wife too, I'll have to introduce you to each other. Yes, she's a dyed-in-the-wool Canadian, but not to be feared because of her Aryan stock. In fact Dot I'm very much in love with her. It seems to me, the many things Sig and I have in common, being looney about our wives is the foremost. I'm certain your two wives will hit it off as well as we two husbands do.

Have you noticed how this guy Sig stuck my page in the book between the sports and folded in the Odds and Ends section? Well I won't complain since I lose both, especially the foot, and as for the Odds and Ends, writing to you this way is odd; and this ends the letter.
— Doesn't that clever!

PRAYER OF A PRISONER OF WAR

O God, my Creator and Protector, I know that thou art near me and so I adore Thee and give myself to Thee, body and soul, with complete submission to Thy Will.

Thou hast saved me from death, which has overtaken so many of my companions, and hast permitted that I be a prisoner of war; I will bear patiently and hopefully for love of Thee with all the difficulties of my state.

Bless me and all my companions here; grant us to live in peace, comforting and consoling one another with fraternal love and charity. Bless my family who are far away, my friends and all I love, my country and my comrades in arms. Give me peace and protect me from melancholy and despair and above all keep me from offending thee. My God, I thank Thee for all Thy blessings and I will try to serve Thee as St. Paul has told us: "Rejoicing in hope; Patient in tribulation; Instant in prayer."

Athburgund Germany
30 Sept 1944

Hello darling, - This is one of those nights when I'm especially homesick, and perhaps by writing to you, even tho' I can't send it, I can ease this feeling a little. It's been a beautiful day; the sun out brightly but the wind has of cold, just like Autumn should be. During the day I usually can find enough to keep my mind occupied, but when it starts to get dark and cold and everyone goes inside, I can't help thinking of how nice it would be to come inside my own home, with you and our son to keep me company, a radio to listen to and nothing to worry about but our happiness. I thank God I'm able to write this, but how much better to tell you what I feel inside. One of these days this mess will be over and by the grace of God, we have a safe journey home. I've imagined many times what our first meeting will be like. I wish it were possible to walk in the front door and surprise you, but I'm afraid that is out of the question because I know I'll get to the first telephone I can find and call you. The sound of your voice will be almost as good as seeing you. I remember calling you from Chester or Baltimore or Wilmington, or not calling you at all just to surprise you. I only hope that the day when I can do that again will not be too far off. Darling, you don't realize how far away you seem right now. The actual mileage is long, but I'm thinking of the things that stand in the way of my return. The war has to end, we have to be transported over land to a port, then a crossing of the Atlantic, then a quarantine when we hit the States, and that will consume quite a long time, then home. Do you wonder then why all our prayers are directed to end the war? Then, maybe, we might be taken thru Russia and wind up in the Far East Theatre. Do you see the dilemma we're in. All things come to those who wait so I can be patient for awhile longer. But until the day I see you, angel, remember that my thoughts are always of you and home. Take care of yourself sweetheart. All my love forever. Gom

Hello darling - I have that unsatisfied yearning to see you again. It's 6:10 P.M. I've just gotten back from supper. It's completely dark outside but the lights all around camp are on. It's been over two years since I've seen lights on outside after dark so it brought back remembrance of the lighted streets at home or at camp. About a half-mile away a railroad crosses a wide, open spot and as I was coming into the barracks a train went by. The clatter of the wheels crossing a switch and the deep sound of the locomotive whistle hit me right where it hurts. I haven't heard that sound for a long time because the trains in England have a peculiar sound all their own; nothing like ours. To top all those distressing sights and sounds, it is raining. That only helps to depress me a little more. All the rest of the fellows in the barracks have gone to supper so that leaves me alone with my thoughts, and you can just assured my home is the uppermost of those. I can only pray that you know by now just what happened to me.

I could get one letter from you saying you know and that everything is alright, I believe I could be happy for the while I'm here. I've written several letters. I hope they're gotten there, because you must be as anxious as I am. This may sound very foolish when (and if) you ever get the chance to read it but it might tell you how I feel here, 4,000 miles away, with nothing to do except barbed-wire & guards and nothing to do except what you can devise for yourself. I'll better stop now before I feel sorry for myself. Remember, my angel, I love you with all my heart forever.

Hello darling - Sunday night and memories of Sunday evenings at home when we listened to the radio till it was time for my train back to Meade. How I used to hate for the evening to come. I can still see us saying good-bye at Norwood station just as the local pulled in on its way to Chester. Darling, I wonder if the memories of you that I keep now will ever leave me. I hope not because that's all I can hold on to now. So many of the little things that you have probably forgotten keep occurring to me and I'm grateful. You're the most wonderful wife a guy ever had and I keep hoping daily that the war will soon be over so I can go home. It's getting very cold here. We had our first frost this past week. Our clothing is not too plentiful so we have to hustle to keep warm. Our Red Cross parcels are all gone so the food situation is none too good. Seems like the Germans can get along with less than I can. They're getting the same as they are. My only consolation, and it is one, is our Chapel. We became a confirmed churchgoer and I'm going to keep it up. We have a show coming up this week. Hope it's good. He'd given up organized sports so we'll depend on the library for amusement. Write about all the news for now. Remember always that I love you with all my heart - Tom

Hello my darling - Three months ago today I was captured. God, it seems like three years. We came all the way thru France and Germany with occasional stops and now I'm here in Poland. I wonder how much more we'll have to travel before I start on that last leg across the Atlantic. We very barren here, but will get as soon stay here till its time to leave for good. Today is Election Day & home. See but Poppy is having the time of his life. Personally I favor Roosevelt. He's done a good job so far, and I don't think we should change Administrations at this stage of the game. This past week we saw the first original musical comedy presented at the Little Theatre. One of the songs "He'll have a song" has stuck my fancy and I'm going to try to keep the melody in my head so you can hear it. The weather is still nasty, as can be. And I get awfully homesick now and then I haven't enough to keep me busy. We started taking courses in E.E., Physics, Rignometry and Electronics. Maybe that will help. Darling I love you forever. Here's my heart - Tom

Hello my darling - another week has gone by and its time to write my weekly letter. Its very cold here now. This morning the ground was frozen and now at 1300, it didn't thaw a bit. Glimmer of snow are falling and already the ground is covered. I certainly feel for the boys who are in the line, but I suppose its not quite as cold there. According to the news, Gen Patton's push is moving ahead slowly and the German Press expects that the battle is the prelude to a big all-out American offensive to end the war before New Year's. So many things we can't possibly realize are governing the conduct of the war and I give up trying to predict an end. My hope, with that of all the corps, is that it is soon. A settled Christmas I can't imagine than a World Peace. Here, we have forgotten the war and concentrate solely on our thoughts of home and plans for our future. We often lay awake at night trying to decide what my best chance will be. It will probably be something concerning師団 membership. Then along with those thoughts comes some of you and the family back home. I abuse myself by trying to remember where every piece of furniture is in our house and I believe I can do it perfectly. the way it was the last time I saw it over two years ago. Darling, I can promise now that the life has taught me the value of food, a home and a family and if I make it home safely, I'm going to be a stay-at-home type for the rest of my days. I'm still looking forward to hearing from you soon. You'll always have all my love.

My angel - This past week has been changeable as you know what. One day the sun was out all day for the first time in weeks; another day the temperature dropped to 27° and the next day it stood at 40° . It has rained and snowed almost continually, yet the snow doesn't last for more than 6 or 8 hours, for which we are thankful. Geodometry is a bigger bite than I can chew without an algebra review so I've temporarily given it up. The Salesmanship class continues to be my favorite. Evidently that's my calling because I look forward to those classes and seem to get a lot out of them. Electricity continues to interest me and I'm doing pretty well with that. I still read a lot. Thomas Smith is one of my favorite authors. Have just completed Col. Stoognagle's book "you wouldn't know me from Adam" and its whacky as he is. Keeps me in good humor though. I seem to meet new friends all the time. Tom Ferrau from Cumberland was up the other night and we took a lot of people in common. My old P.I.D.A. buddies still get around. I'm trying to get the addresses of all the boys from our section of Pa. Might want to see them sometime. I still hasn't gotten a shipload of R.C. parcels. It takes us scraping to keep a little ahead. I miss most of all the chocolate and powdered milk. Yesterday we got a rumor that a carload of parcels was at the station but it turned out to be lumber. I still have hope that some will get here before Thanksgiving. Our church choir is practicing for Midnight Mass on Xmas. It makes me very homesick to hear these Carols. It leaves you wondering. May be next Xmas will be different. Anyways, always remember that I love you with all my heart forever.

Another week (21st)

Hello sweetheart - I'm kind of expecting a little mail soon. Some of those men who got sent 3 weeks ahead of us are now receiving letters. It gives us something to which we can look forward. A letter from you would be a wonderful Thanksgiving present. Three more days and Thanksgiving will be here. I've got a lot to be thankful for. I'm alive, well and not suffering too much. I've lost 17 lbs in the last month but I can afford it. my chin is just about as it should be now. The only thing I need physically are lots of exercise but our ration you can't do too much of that! - They are sending us German movies for us but they aren't so good. They try to interpret it for us and that spoils the story. There hasn't been much excitement during the past week. No R.C. parcels yet. The news looks pretty good. Looks like the French FA took off. Hope they can keep it up. Met a couple new men from the Div. and they tell me the Div. is still going strong. More power to them. Its in recceing in the Achsen sector. I'm going to try to get back in when we get home. Weather has been changeable lately. Lots of rain, then snow, then temperatures in the 20's. Yesterday (24°) for a change, it was out most all day, even though the clear weather dropped the thermometer 14° . Every morning to keep my morale straight, I wake about 30 minutes before I get out of bed, to thinking of all the things at home I had so dear. Then I try not to think of it very now during the day. I find that keeps me from getting morbid with

It's a pretty bad state of affairs in such a place as this. Finid a few smoking matches the other day but I think you'll like Bond Street, Half & Half and Prince Albert. I'll try it at home and see if it's appropriate to you. Tell my angel, we run out of interesting things to say and as is usual under these circumstances I'll have to close. I love you more than I could ever tell or show you. I hope your Thanksgiving will be nice. Give my love to our sons, to Mammie, Poppy and all the rest of the family and friends. I hope you're praying that this thing ends soon. All my love - Tom

Thanksgiving (30th)

Hello darling - This is the day on which I comfort help bring home news of I tried. It's been a long time since I spent this day at home. Under my present circumstances it's some further away than ever. Right now (2000 hours) if the routine of your family holds good you are just about sitting down to your big dinner. I'm just finished mine. We had corned-beef hash and cabbage. I won't attempt to guess what you are having. Started today off by attending a Mass of Thanksgiving at 0900, during which I sang in the choir. Considering everything I have a whole raft of things for which to be thankful. I'm alive, most of all! Look most of the day because it's pretty nasty outside. Had our pig (?) killed at 1400. One of the boys in the barracks has some records. He's playing them now. They certainly bring back memories. "Jersey in the Woods", Harry James "Trumpet Major" and a flock of others. I can keep myself playing them in our room at home. Dancing, sometimes I nearly bang my head against the wall in desperation. Will this thing never end? But then what the hell is in hell this way. It don't help the progress of the war. The only reason I've written this letter is to let you know that on this day above all, I thank God I have such a wonderful wife and family and that my thoughts have been with you throughout the whole day. I'll always love you darling, until the day I die. Here is my heart for keeps - Tom

5 December 1944

My darling wife - another week in captivity gone. Tomorrow makes my fourth complete month of being a POW. Day after tomorrow we will have been at war for 3 years. A lot has happened since that day in 1941. It hardly seems possible. This past week has been a repetition of all the other weeks except that Thanksgiving came along. I've already told you all about that. There has snow, rain and temperatures around 30°. The news is very heartening. The Russians are going very well in south Hungary and our push on the West Front is doing better. The Germans won't move anymore and they are all optimistic about the end of the war. We are on the board that there is a peace move on in Germany. Some of the fellows believe it but I figure there must be enough people in Germany wanting peace that the Nazis have to admit it. And if it is important enough to warrant space in the newspapers, there are possibilities. I'm still hopeful for the news. Only time will tell. - Yesterday, I got a Red Cross Parcel.

This a.m. I had a cup of hot milk, some pork paté and some chocolate candy. I filled up for once. And I didn't get hungry by lunch time. The boy must last me for two weeks so I have to conserve some. He's thankful that they got here finally. - Jack Kayser is going home soon so he has promised to drop you a card. Thought you might like to hear from someone who has been here with me. - Coal ration is being cut 40%. With our present ration we have to keep most of our sweaters and jackets on inside the barracks so when cold weather really gets here, it's going to be tough. I thought I can take anything that's dished out now. If I can't, I've underestimated myself. - Please shoot all the news you know. One of our group got a letter yesterday so we hope are up. Say hello to all my family and friends. Send my deepest regards that I adore you from the bottom of my heart. Kisses by the millions - Tom

Happy birthday my darling - And I hope I'm always nearby for all the rest of them. Yesterday was Bob's birthday. She was seventeen. Pete Mason, the American who was in the Canadian Parachute, is celebrating his first wedding anniversary today. So, to do honor to the occasion we whipped up a combination chocolate and vanilla fiddling (2 day large process, 1/2 lb flour, 10 lumps sugar, 3 1/4 days ration of bread, 2 tablespoons margarine, 1 tablespoon powdered milk, pinch of salt. Diced with coffee flavored PW delight.) He made it yesterday

Luckenwalde, Germany
25 February 1945

my darling - This letter is a few days early but I've come to another of those times when just to write to you will make me feel better. Most of us are pretty depressed. Kriegs III A in no way compares with Shabla. We're back on the German ration of $\frac{1}{2}$ loaf bread, 1 oz. margarine, $\frac{1}{2}$ liter soup, 1 tablespoon sugar, about 1 day potatoes and a pint of coffee per day. We do get tea twice a day but there's no food value in that. We have no C.C. parcels and probably won't see any for a long time. Some of us, namely me, have had no mail at all and that is greatly contributing to the general lowering of morale. Fortunately, the weather isn't too bad. It's cloudy & rainy a lot but not too cold. We're sleeping in triple-decker beds, about 180 men in a building $100' \times 35'$. All in all we're living a pretty miserable existence. We still manage to hold Mass every day. Fr. Gleeson is here now. Our group is straggling in at odd times; we have about 500 here and more expected at any time. The RAF is here, 1600 strong, and has made a few friends among them. We spend our days visiting each other and waiting for food. I've forgotten what it's like to say "No thanks, I don't care for any more." My weight is still down pretty low, and I'm soft from lack of exercise but fortunately I don't feel too badly. If we have to start out walking again it's going to be pretty rough. We get lots of rumors about the war none of which we put much faith in, but we're still hoping with all our power that it ends soon. - Darling, I've cried the blues long enough so I'll close for this time. I hope this is the last letter I'll have to write in here. Remember darling I love you with all my heart. Kisses for me. I adore you sweetheart - All my best - I you

Hello my angel - Another month gone by and one more month down home. As usual a lot of things have happened since I wrote the above letter. Good news first - During March, 157,000 Red Cross parcels arrived here, considerably easing the food situation. We got the first three issues at five day intervals and we all picked up a little weight. Then the weather suddenly got very nice. The sky cleared off and every day we sun-bathed. I managed to get burned once as is usual with me every spring. The temperature stayed up in the 60's. Now the air raids. We are so close to Berlin that a raid there includes us in the alert area. Several times we saw big daylight raids and nearly every night this month the RAF have been over, usually causing the turning off of our lights about 8:00 P.M. Every day we manage to play some sort of games. More athletic equipment keeps coming in. The RAF here have put on several good soccer games. The British & Americans put together and formed a little swing band which gave us many hours of entertainment. I joined the Polish Choir and got quite a kick out of singing with them. Right now we are preparing for the outdoor Mass next Sunday. We are all getting more anxious each day for this thing to wind up. With good weather here we hope it won't be long before the final drive is begun. We are all thankful that the winter is behind us. A kriegs life is easier to take when the weather is warm. - The general tone of this letter, in comparison with the last one, shows that my morale is much higher. I'm still hopeful of receiving some kind of news from you because we are getting in some private parcels now. Anyway, if I don't, I don't think it will be too long before I can see you. Make day that will be! - Remember I adore you always.

My darling wife - As you see, the address is changed again as is the color of the ink. My fountain pen is dry and this is the only color I can find at this time. Hell Angel, THAT DAY has been here and gone and still far gone as far from home as ever. So try to tell you all the circumstances concerning our liberation, would take more time & space than I can spare. He came almost moving out of III A but luckily the Russians came so fast that the Goons had to abandon us. For nearly a week we watched the horizon to the West, South & East. Our patience was rewarded by the sight & sound of Artillery in the N & S.E. It saw lots of our planes and some of the heavy they hit near us. Then came the joy when the Goons left us. The time is a pretty sticky situation but think the Russians showed up and we were temporarily in the clear. We organized our F.M. into a Company of 4 Bns, and fell heir to the 25th Company. On the 25th of April, our Bn marched here. This is a former rest camp for wounded officers recuperating. We got ourselves all set up in about the most superior & comfortable place we ever been in. But tomorrow we move back to III A, about 6 miles. Why? There all pretty discouraged about the situation. Starting I hope + you we get home soon. Remember always that I love you forever. In counting the days now. Kisses. Tom

FOOD

In a moment of weakness in November 1944 I decided to jot down some of the things I want to eat when I get home. Food is probably the topic of conversation among refugees. And very few of the dishes I'll name, have been available to me since I left the States. They are listed in no particular order; just as they came to me. Someday I hope to start at the top of this list and work right thru it. Here they are:

1. Pancakes and eggs in this manner - one pancake on the bottom, then a fried egg on it, spread; then another pancake and egg, then another pancake. Over this, pour melted butter (lots of it, too) and Kero White Syrup. Everything piping hot. Three sausage links.
2. Coffee, the way Dot makes it. Milk toast
3. Pineapple upside down cake with gobs and gobs of whipped cream
4. Cole slaw à-la-Mammy.
5. Apple pie with short pie-crust, and cream or butter.
6. Pound cake with lots of chocolate sauce or a chocolate layer cake
7. Bacon fried crisp (at least 6 or 8 slices) In the grease, fry brown two slices of bread. Sprinkle Worcestershire Sauce on the bread and then put on two fried eggs.

14. Ritz crackers with all the trimmings
15. Pear and cottage-cheese salad.
16. French-fried toast with lots of butter and Log Cabin Maple Syrup, or jam, or honey
17. Hamburg with onions on toasted rolls with all the trimmings
18. Fried Chicken, gravy, hot biscuits, sweet crushed corn, french-fries

VI Fashions - Do the colored still go in for zoot-suits & bow ties? Are raglan sleeves and sport coats still in style? Do you like these cock-eyed hats the women wear? How do you like this "zoot-suit"?

VII General - Have you missed me? What did you do on 20 Dec 1944? Did my mail come thru o.k.? What were your feelings when you learned I'd been captured? Did rationing hit you very hard? Was there any comment on the prosecution of the war? What do you think they should do with the Axis? How were German p.s.o.w. treated here?

Dreams of a hungry kriegie

1. Pete Mason & Bob Rein - On a large meat platter place symmetrically one-quarter each of apple, cherry, blackberry + raisin pie. Between each slice lay a banana split lengthwise. In center of plate place a small sponge cake. On the apple pie put vanilla ice cream covered with butterscotch sauce. On the cherry put maple nut ice cream with crushed pineapple. On the blackberry put peach ice cream with fresh sliced peaches. On the raisin put chocolate ice cream with marshmallow sauce. On the sponge cake put strawberry ice cream with fresh strawberries. On the bananas place a chocolate eclair, 4 in all. Cover ingredients with whipped cream. Sprinkle liberally with chopped mixed nuts and decorate with cherries. Serving for one person.
2. Harry O'Connor - Hollow out a full loaf of sandwich bread. Pack several flavors of ice cream into cavity. Seal. Put thick chocolate sauce as an icing over it. Chill in refrigerator. Slice and make sandwiches with horns Doones.
3. Si Bailem - Layer of pound cake, layer of ice cream, layer of cake, layer of ice cream, layer of cake. Over this pour a large jar of raspberry preserves. Cover with whipped cream.

- 15 Sept - Oflag 64.

This account of my first 1½ months as a kriegie is just barely a sketch. A detailed account I had written, was lost somewhere on the march from Shubin. Many things have been forgotten, but I'll mention them below as I recall them.

1. The wonderful treatment by the French people, who risked the displeasure of the Germans to give us food & smokes. Some were caught and punished on the spot.
2. The hundreds of vehicles we saw, which our AF had destroyed.
3. The Palace of Versailles, Eiffel Tower, Seine, Arch de Triomphe
4. The black market at Vermille & Chalon.
5. Our first box-car ride. O'Connor.
6. The German Red Cross.
7. The difficulty in becoming accustomed to German food. Latrine facilities
8. Col. Thompson's story. Sick call at Chalon.

OFLAG 64.

Altburgund, Germany (Shubin, Poland before Polish capitulation), the site of Oflag 64, is a town of about 2,000 population. It is located on a great flat plain and has no visible means of support. At least that is our conclusion, even tho we've only seen it once as we marched thru on our way here. The streets that were paved, and there were very few, had cobblestone surfaces. The rest were just rutted, sandy tracks. The buildings were old and some badly in need of repair. The people we saw were of the "peasant" type and all either old or very young. Oflag 64 is just on the West edge of the town.

The Camp consists of one large, concrete, four-story building known to us now as the "White House", SEVEN long, temporary, brick barracks, and an assortment of smaller buildings used for latrines, stock rooms, storage etc. At one time, they tell us, the camp was a Polish reform School for Juveniles. Surrounding the camp is a double barbed-wire fence about ten feet high with masses of tangled barbed wire between the sections. Strategically located are guard towers equipped with a searchlight which is played over a certain portion of the camp at regular intervals throughout the night, a swivel-mounted automatic rifle, and a telephone. Guards patrol outside the fence between the towers. Just inside the fence is a single strand of wire beyond which we mustn't go on danger of being shot without warning. Signs are erected here and there reminding us of it.

Inside, the camp is run just as any American camp is run at home, a concession made to us by the German Commandant. Col. George Millet, S.A.O. is in command with Lt. Col. Schaeffer as his assistant. Major Meacham is Adjutant and Major Robertson supply officer. We are all responsible to these men and they in turn to the Germans. Other Officers have been put in charge of various activities (Sports, postal, etc). Each barracks is commanded by a Lt. Col. and he has his assistants just as the Camp CO. Orders emanating from either the German Commandant or Col. Millet are read at Appel, then posted on the bulletin board in the White House. Every thing is carried on in a military manner. We have two compulsory formations (Appels) each day and usually a surprise one sometime during the week. At these times (0800 and 1645 daily, plus the surprise one) we assemble, by platoons, in the square behind the White House and are counted by a German Officer. It usually only takes a few minutes. There must be no tardiness for Appels, else the offender is punished by the S.A.O. Punishment for this offense is usually an hour in the assembly area to think it over.

The living quarters are good. The barracks are about 200 feet long and 40 feet wide. They have concrete floors and plaster walls. The walls are painted cream color, giving the place a bright and clean look. The concrete floor gets very cold, but its easy to keep clean. The barracks is divided into two equal-sized sections by the wash room and cooking room, the wash room has 48 faucets accommodating quite a few men at a time, when we have water. The cooking room is equipped with a big stove with two fire boxes and four sets of double lids. The living quarters on each end of the building are divided into cubicles, 6 on each side of the room. Each cubicle has a window, 4 double lockers, a table, 8 stools and four double-decker beds, accommodations for eight men. Bed sacks, filled with wood shavings specially prepared for that purpose, are our mattresses. Two blankets a mattress cover and a pillow case complete the bed. Heat in cold weather

1. BBC News - Every prison camp had several radios, smuggled in thru private parcels. Each night the news was read to us, keeping us abreast of the situation. Many of the men concerned with the news service risked their lives because death was the penalty in Germany for listening to foreign broadcasts. We had a transmitter with which we kept in contact with our Army HQ. Wherever we went we took them with us. Fortunately, despite many searches, none were ever found.
2. Escape material - Usually in games sent in, we received flags, compasses, knives, maps and anything our government thought could be of use to us. One cache was found at 64 but nothing came of it. When we were liberated American flags appeared from all directions.
3. Friendly Goons - In all the camps I've been in you could find at least one Coon, strategically placed, who kept us informed on things pertinent to us. Information such as ~~searches~~ searches, confiscation of clothing, food, etc., always reached us in time for us to be prepared. At 64, Bull & Capt. Monner were very valuable to us. At TFA it was Bull again and another whose name I don't know.

Sometime, preferably about the third week of my month's vacation, I'd like to take a trip by automobile to these various places and see these people.

From Home to New York, just to look around
to Albany, visiting Harry, Mary and Al.

To Buffalo, to see Charlie & Marty & Niagara Falls.

To Toronto, to see Pete & his wife

To Detroit, just to look around

To Cleveland, just to look around

To Youngstown, to see Aunt Mary et al.

To Westernport and vicinity to see both Grandmothers, Uncle Harry,
Uncle George, Uncle Joe, all the cousins, Jim Lysdon, Mr. Miller, Joe
Laughlin, the immediate family and all my friends

To Washington, to sight-see and visit Mrs. Wilson and my friends.

To Baltimore, to see Ruth

To Prospect Park to recuperate

If gas or tires are still on the rationed list then I'm prepared to wait till I'm discharged from the Army.

I'd like to see again: The lilacs blooming in our back garden; a good movie; a lighted street; my wife dressed in white; the Washington Monument at night; the Statue of Liberty; the heat shimmering off a pavement; the little Christmas tree in our window; a civil plane in the air; our flag, flying; the Inquirer; the Army-Navy game; Broad street station; A Greyhound bus; a sweet potato; a neon sign;

I'd like to hear again: Butch saying "shovel"; some good American radio programs; the local, grinding to a stop at Norwood station; Mammy singing as she works; Mrs. Belden shouting "Tommy"; traffic noise on Broad Street; an air-horn; a locomotive whistle; a telephone ring; rain on our roof; feminine chatter; Pappy, who just went around the corner for a short beer; ice tinkling in a glass; eggs frying; Bill Stern and Roosevelt; Pappy saying Grace; any top-rank band, in person; church-bells.

I'd like to: sit on the front porch, eating ice-cream, on a hot summer night; drive Pappy's car anywhere; putter around with the moon; play all our records; take the trip I've planned; take a nap after Sunday dinner; say what I think; trim a tree for the kids; strike a box of matches, say, "No thanks, I don't care for anymore"; buy all the sweets I want; have a big drink of good whiskey or wine; ride the Philly subway; go to a dance.

DAS 1ST ALLES

Well darling, that's it; or as much of my life as a
Kriegie as I felt like recording. The life was tough, mentally
and physically, but, thanks to human nature, I'll probably remember
only the amusing incidents. Many things I've had to omit,
for various reasons, but I promise to tell you about them as
I recall them. The work on this book kept my mind occupied,
in a place where boredom is your greatest enemy. It was
fun doing it; I hope you've had a pleasant time browsing
thru it. And, as I wrote on the first page, so I'll write on
the last; "I missed you very much, my darling"

T/S.

You've had it

is furnished by three double, tiled stoves. Fuel is coal, wood and peat, or whatever else will burn.

Due to the large number of officers here (roughly 800) and the lack of space, we eat in three shifts. For breakfast, a representative from each barracks draws hot water from the kitchen to be used for coffee and we prepare our meal in our own cubicle. Lunch is served in the dining hall at the White House. First sitting at 1130, second at 1220 and the third at 1310. Usually we have soup made from the German ration. We are issued $\frac{1}{6}$ loaf of bread to last till lunch of the next day. Supper sittings are at 1700, 1750 and 1840. For this meal we get boiled potatoes and Spam or Corned Beef which had been taken from our Red Cross Parcel. Once in a while some very good cottage cheese comes our way. Once a week we get an issue of German sugar, margarine and sugar beet jam. Every thing works out pretty well. Each sitting is broken down into groups of 8 men per table and all issuance of rations comes thru the leader of that group. Every week, we are issued a Red Cross Food Parcel sent to us by the American Red Cross. The contents of these boxes are well selected and supplement our ration nicely.

Amusements are of various natures. We get an occasional American Movie and a group of former actors, now under the title of the "Little Theatre Group", put on very good plays about once a month. Some of their performances have included, "You Can't Take It With You", "The Man Who Came To Dinner", etc., all first-class shows. The swing band, 20-pieces strong under Bob Rankin, puts on a swing concert periodically. The playing of some sport is encouraged by the formation of soccer, football, basketball, softball, etc. leagues. Golf lessons can be had for the asking from Jerry Long, a former pro. A Gymnasium with a hand ball court, weight-lifting equipment, ping-pong tables and the paraphernalia associated with boxing, is available for our use at any time of the day. We boast a library of well over 6,000 books ranging from "Games For Kiddies" to Shakespeare with a liberal supply of technical books. Classes in German, French, Mathematics, Dramatics, Law and many other subjects are held daily. An Artist will teach you how to paint if you so desire. For those who like to putter around in a garden, most any piece of unused ground in camp can be, and has been, planted. The "Volkischer Beobachter", a German daily, is issued and those who understand German translate it for us. The camp itself publishes a monthly paper "The Oflag West Item". A German propaganda paper "J.K." printed in English finds its way to us about once a week.

The religious welfare of the officers is well taken care of by four Chaplains, two Protestant, two Catholic. For the Catholics there are two masses daily at 0730 and 0915. Evening Prayers each night at 1930. Protestant services are held every Sunday at 1030 in the Theatre. The Chaplains are available to listen to our woes at most any time and their rooms have become hangouts for those of us who care to spend a quiet evening in small talk. Father Brach is the oldest Kriegie among the Chaplains. He was captured in Africa nearly two years ago. Captain Hennion, next oldest, was with one of the "Airborne Divisions" that landed D-1 in Normandy. Captain Testmann, Col. Hardaway's chaplain, was captured with the Colonel at Mortain on the 9 August and Father Glennon is J.C.P., taken around the 1st of Sept.

Representatives from the International Red Cross and the YMCA pay periodic visits to camp. Any complaints we have are registered with them and they in turn pass them over to the Swiss Court, the Protecting Power, for action. These men also take into consideration any plausible suggestions we may have relative to making our life here in

camp a little easier, and see that those suggestions are placed in the hand of the proper authorities. On arriving, these men, accompanied by the German Commandant and the S.A.O., inspect our quarters, sanitary facilities, mess, etc. Any discrepancies are noted and the German High Command informed. The S.A.O. can complain, thru them, that any Articles of the Geneva Convention pertaining to P.O.W. are being violated.

Mail goes out every Monday and Thursday. We are allowed to send one letter and one postcard per week. These are censored by the Germans, then sent to Switzerland, where the International Red Cross, acting as intermediary, places it in American hands for delivery. Mail coming in goes thru the same routine. The average time for a letter to get here is 80 days. We can receive an unlimited supply of mail.

To THE READER:

AFTER READING THIS DESCRIPTION OF LIFE AS A P.O.W. IN OFLAG 64, YOU MAY GET THE IMPRESSION THAT IT WAS A VACATION FOR US. DON'T BELIEVE IT! THIS BOOK WAS ILLEGAL. HAD I BEEN CAUGHT WITH IT, I COULD HAVE BEEN SHOT. IT WAS SMUGGLED INTO CAMP BY SOME INGENIOUS METHOD OF WHICH I AM UNAWARE. AT LEAST 20 OF US GOT ONE. WHEN I BEGAN TO RECORD MY "MEMOIRS" I MADE THE DECISION TO PUT DOWN MY WORDS IN SUCH A WAY THAT THE GOONS COULD NOT SAY I WAS DEFAMING THE THIRD REICH (GERMANY). TAKE INTO CONSIDERATION THEN, THAT THE OPPOSITE OF WHAT I WROTE WAS USUALLY THE TRUTH. THE GUARDS STOLE OUR RED CROSS PARCELS, WE RARELY HAD RUNNING WATER, FUEL FOR STOVES WAS PRACTICALLY NON-EXISTENT, WE WERE INFESTED WITH LICE, THE GOONS PAID NO ATTENTION TO THE GENEVA CONVENTION, WE WERE CONSTANTLY BEING SEARCHED AND THREATENED WITH DEATH, WE GOT NO MAIL, WE WERE UNDER CONSTANT SURVEILLANCE BY GUARDS WE CALLED "WASPS" - I SUPPOSE THE WAY WE WERE TREATED WAS A FORM OF BRAIN-WASHING. WORST OF ALL THOUGH WAS THE LACK OF FOOD. I ENTERED CAPTIVITY AT 165 POUNDS - I CAME OUT AT 127.

PLEASE KEEP THE ABOVE IN MIND AS YOU PERUSE THIS BOOK

TKS

ON THE FOLLOWING PAGES, I'VE TRIED TO GIVE A BRIEF ACCOUNTING, DAY BY DAY, OF A KRIEGIES ACTIONS AND THOUGHTS AS HE SWEATS OUT HIS CAPTIVITY HOUR BY HOUR. UNLESS YOU'VE BEEN IN THIS SITUATION, THERE IS NOWAY YOU CAN FULLY UNDERSTAND THE BOREDOM, FRUSTRATION AND FEAR FOR YOUR LIFE THAT HE LIVES WITH 24 HOURS A DAY. WHEN YOU READ, TRY TO PUT WHAT YOU READ INTO PERSPECTIVE. IF I SAY A MORSEL OF FOOD WAS TASTY OR GOOD, IT WAS - COMPARED TO THE ABSENCE OF FOOD, BUT TO YOU, HAD YOU KNOWN ITS CONTENTS IN COMPARISON TO WHAT YOU EAT, IT WOULD BE REPULSIVE. WHEN I SAY I ENJOYED SOMETHING, I DID, BECAUSE IT WAS BETTER THAN HAVING NOTHING HAPPEN. PRISONERS OF WAR ARE DESPERATE PEOPLE AND WILL SIEZE UPON ANY ACTIVITY IN ORDER TO KEEP THEIR SANITY. THE MENTAL ANGUISH IS FAR WORSE THAN THE PHYSICAL.

KEEP IN MIND ALSO THAT FOOD WAS OUR NUMBER ONE PRIORITY. THE GERMAN RATION WAS SLOW STARVATION, (BUT THE GERMAN CIVILIAN WAS LITTLE BETTER OFF THAN WE) AND HAD NOT A FEW RED CROSS PARCELS REACHED US, MANY OF US WOULD HAVE DIED - IF NOT FROM MALNUTRITION, THEN BECAUSE HIS BODY WAS TOO WEAK TO FIGHT OFF ILLNESS. THE AMERICANS AND BRITISH WERE TREATED FAR BETTER THAN THE POLES, RUSSIANS, FRENCH ETC, THOUSANDS OF WHOM DIED IN PRISON FROM CRIMINAL NEGLECT. IN RETROSPECT, I THANK GOD I WAS ONE OF THE LUCKY ONES - I PRAY FOR THOSE WHO DIDN'T MAKE IT.

ONE FINAL THING - EISENHOWER GOT WORD TO US TO SIT TIGHT, DON'T RISK YOUR LIVES BY TRYING TO ESCAPE. A FEW AMERICANS WHO TRIED IT WOUND UP DEAD AND WERE USED BY THE GERMANS TO SHOW US THAT TRYING TO ESCAPE WAS FUTILE.

15 Sept. 1944 (Fri)

Tonight we arrived at our permanent camp, Oflag 64 at Altburgund GERMANY. Left the train at 1730, marched thru town and into camp. Searched and turned over to the American Administration. Food, bath and an issue of clean clothing Quartered in Barracks 9b under command of Lt. Col. Mertz. Got 1/2 Red Cross box. Went to bed at 11:00 P.M. and slept like a log. You should see how the old men flock to the gate when we arrived. The same old story - looking for someone they knew. All of them were as considerate as could be. Everyone wanted to help. One officer took us in tow and guided us all evening till we got to our barracks. It's a relief to be among your own again. This little spot of Germany belongs to America.

16 Sept. 1944. (Sat.)

Today was a busy one for me. After breakfast from my Red Cross box, with some hot coffee, was appointed Adjutant of the barracks and as such, had a whole raft of rules, regulations & orders to print up for Col. Mertz. Was surprised by a visit from my old friend Jimmie Heard who was captured 11 JUNE. Saw Glingluff, DiBerto, Scott & Myron. There was a track-meet today. Some of the competition was pretty hot. Saw part of it. Had a good supper; fried Spam, Cole slaw, mashed potatoes, bread, butter, jam and coffee. During the evening I got myself settled in my new home and went to bed about 2300. My first twenty-four hours in my new home have been pleasant. Hope it remains so.

17 Sept. 1944 (Sun)

Sunday and a beautiful day as far as the weather was concerned. Made a tour of the camp to see what was here. Visited the library, the bulletin boards, the Chapel, the athletic fields (basketball, foot-ball, soccer, track etc) the hospital. Drew a blouse, sweater, 2 shirts, 2 pairs socks, tie, 6 handkerchiefs, wool knit cap, pair shoes, pair athletic shoes, 2 sets insignia toilet set, heavy underwear, towel, scarf and gloves. Made up tags for lockers and bunks. Spent the evening with Scotty and Heard. It's the first time we've had a chance to talk. They wanted to know all about the Division. In turn they gave me the lowdown on the ground-rules, the tin store, entertainment the library, cleaning facilities and lots of other questions I asked. Came back to the barracks at 2145 because no one is allowed outside after 2200.

18 Sept. 1944 (Mon)

Monday. We were registered by the Germans. Filled out a form that all P.O.W. fill. Worked all morning on some business arithmetic. In the afternoon I started making a map. What a job. It shows the European situation. Pretty hard on the eyes. Scotty invited me down for some grilled cheese sandwiches this evening. Went to bed about 2230. The men in camp have been very considerate. All of them have done their best to get us settled. The first question they ask is "Do you need this or do you need that?" Marvelous bunch. That sounds like repetition but it's worth repeating. Maybe the fact that we are all "Kriegies" makes a difference. (Kriegsgecomes from 'Kriegsgefangenen' - P.O.W.) I've never seen a bunch that gets along as well as this camp. More co-operation

19 Sept. 1944 (Tues)

Took eight laps around the track at 0630. About 1300 yards. Expended myself. We all need the exercise, tho. Worked the whole day on the map. Bigger job than I expected. But its beginning to look like some thing. Took the evening off and read some Ogden Nash. He's terrific. Bed about 2300.

20 Sept. 1944 (Wed)

Ruth's birthday. Hope its a happy one for her. Finished the map about 1000. Lots of favorable comment. Kicked a soccer ball around till lunch at 1220. Saw "George Washington Slept Here" at 1400. First movie on the Continent. Had seen it in England but enjoyed it again. Played more soccer till Appel at 1645. Worked on this book all evening. Bed at 2300 when lights are switched off.

21 Sept. 1944 (Thurs)

Got sick last night. Don't know what's doing it but it's happening too many times lately. Slept till 1030 and felt much better. Weekly hot shower at 1100. What a blessing. Shortly after lunch was invited in to hear the camp swing band. Bob Rankin has been here a year, has taught half his men to play instruments and has whipped up a really good 20-piece swing band. (4 violins, 5 sax., trumpets 2 trombones, 2 bass, 2 guitars, drums, piano). He plays a lot of Harry Clinton stuff. Very enjoyable afternoon. During the evening Maj. Cole, Div C.W.O., came over and we spent the time talking about our experiences and the people we both knew. Went to bed at 2300.

22 Sept. 1944 (Fri)

This morning we signed receipts for our AGO cards and other papers that had been taken from us. Afterward I washed all the clothing I had worn to camp. Had hot water for it so the washing was a success. Practised soccer for awhile during the afternoon. After supper saw the play "You Can't Take It With You" as performed by the "Little Theater Group" there are about 700 officers here and among them is all kinds of talent. The feminine parts were taken by men naturally. It was well done and in no time we in the audience had forgotten the actors in our concentration on the story. Hope there will be more of them. Went to bed at 2300, as usual.

23 Sept. 1944 (Sat)

There is a Catholic Chaplain here who says Mass every morning so I've started to go to Church every day. After breakfast we cleaned up for an Inspection, a regular Saturday affair, conducted by Col. Millet, our Q.A.O. After lunch practised some soccer and attended a meeting to get a soccer league organized. Listened to the band again for awhile then washed up for supper. In the evening Powell and I started to make bread pudding but it wound up with about everything but our blankets in it. We put it to soak over night. We'll cook it in the morning. Bed about 2200.

24 Sept. 1944 (Sun)

Roll call at 0900 this a.m. We cooked our "concoction". Doesn't taste too badly. Went to High Mass at 1030, came back and read more of Ogden Nash till lunch. Played a little soccer and worked on this book in the afternoon. Went visiting Ray Marnien from Philadelphia and spent the evening talking of home. He's quite a soccer player. Bed at 2230.

25 Sept 1944 (Mon)

Rainy today, and cold. Worked all morning putting notes and autographs in this book. In the afternoon got my soccer team out for practice. Some are good, some not so good, but all willing. We play Wednesday a.m. Got a #9 Red Cross box, water soaked. Not as large as the #10. Had a very good supper tonight, baked corned beef with onions, cottage cheese, boiled cabbage and stewed pumpkin. Spent the evening getting autographs. Bed at 2200.

26 Sept 1944 (Tues)

Very chilly today. Feels like winter is here. Worked all morning catching up this diary from my notes. We hear that 60 new officers are coming in today. They're getting places ready. Started to rain about lunch time and continued all day. Lay in bed reading "Valley of the Giants". Tonight we saw a movie, Deanna Durbin's "Spring Parade". The Viennese music made me very homesick. I kept thinking of that album of Waltzes we all at home like so much. Went to bed at 2300.

27 Sept 1944 (Wed)

Cleared up during the night and the sun came out this morning. Had my picture taken by the Germans for an identification card. Spent a couple hours working out with my soccer team. They're whipping into shape. Lunch was uneventful. Made a cardboard frame for the picture of Dot + Tommy. Held a blackboard talk with some of my players who have just begun learning the fine points of the game. Watched our barracks touch-football team go down to defeat 31-6 in the latter part of the afternoon. Tonight I altered a pair of trousers that were too long. Then worked on my book. Two years ago today I sailed from New York Harbor. It has been a hard, long time. I wonder if the next two years will produce the variety of events the past two have? Went to bed at 2200 with "Ogden Nash" as a nightcap.

28 Sept 1944 (Thurs)

Has been a very beautiful day as far as weather is concerned. Mass at 0730, Appel at 0800, then breakfast. Filled in as Fullback on one of my competitor's soccer team and then had my weekly hot shower at 1130. Had skull practice for my team at 1400 after which I watched two touch-football games. Lots of big-league talent here. Started after supper to put a copy of all the patches seen in camp into this book. Pretty tiring work. Read some more of "Ogden Nash" before going to sleep around 2200.

29 Sept 1944 (Fri)

Woke up very early this a.m. Too much sleep. Went to Mass at 0730, Appel, then breakfast. My team took a beating this morning 2-1. They didn't look too badly while absorbing it. Have lots of hope for them. 61 new officers came in this a.m. No one I knew, but a couple new patches. They were glad to get here. They tell us Lumborg was bombed. Practised with the choir this afternoon, then watched some football. Appel at 1645, then supper. Worked till 2030 on my drawings. You have to take your time. Had to stop; my eyes got tired. Bed time was 2200.

30 Sept. 1944 (Sat.)

Payday back in the Army. Certainly would like to be there to collect pronounced our barracks EXCELLENT. Wandered out to the athletic field and was pressed into service as Goalie on Marnien's team. They scored twice on me. Not so good. Went to the library and "browsed" for awhile after lunch then read till supper. Wrote to just end home then read Irving S Cobb till bed-time.

1 Oct 1944 (Sun)

New month, new day, new page but the same old routine. Sang in the choir at 0730 Mass, had break fast then Appel at 0900. Took some of my less adept soccer players out for an hour & a half of practice and consumed the time till lunch. Read for awhile, then listened to the dress rehearsal of Rankin's Band. They start a 5-night performance of "Swing Session" tonight. They're better than ever. Good American give makes the day worthwhile. After Appel I got the whole soccer team out for a final practise before tomorrow's league game. Wasn't feeling so well so I didn't eat any supper, but worked a while on my insignias then read till bed-time at 2300.

2 Oct. 1944 (Mon)

Got an extra hour of sleep last night. Germany set her clocks back at midnight last night. It rained all day so my game was postponed. Saw Frederickson, who used to be with Shilling, Stinnett, Obenshain etc. and talked most of the morning about people we knew. Our Red Cross parcels were delivered about 1100. Then lunch. Read "Life In A Putty Knife Factory" by H. Allen Smith during the afternoon. Appel, then supper. Evening was very boring. The clock going back an hour certainly shortens the hours of daylight. Bed about 2230.

3 Oct 1944 (Tues)

Another rainy day. We are temporarily out of water. The pump is broken. Sang at High Mass at 0900. Spent remainder of morning fixing up this book and making a "fat lamp". A can filled with margarine with a shoe lace for a wick. Dinner was good. Sardines, boiled potatoes. Made some toast to go with it. During the afternoon I started to read and as usual fell asleep. It was Appel time when I awoke. This evening at 1930 I went to hear Bob Rankin and his Band in a full hour of swing. Some of the numbers he played brought back a lot of memories. For the remainder of the evening I read a compilation of humorous stories. Bed at 2300.

4 Oct. 1944 (Wed)

For a change the sun came out early this a.m. At 1000 my soccer team played its first league game and while they outplayed the opposition, we lost the game 2-1. Better luck Saturday. Lunch time then. Spent the afternoon watching a couple games of touch-football. Right after supper I put a couple more insignias in this book. About 1930 we got 3 new officers, so I spent the remainder of the evening getting them settled. Bed at 2300.

5 Oct. 1944 (Thurs)

Woke up at 0700 with the sun in my eyes. About 1000 it darkened up again. Watched 2 soccer games during the morning, then went to lunch. Read a little while during the afternoon, visited some friends, then watched a football game. Appel, then supper. Read "Night Life of the Gods" by Horne Smith until bed-time at 2300.

6 Oct 1944 (Fri)

Slept right up to Appel time. Sewed some paper into my blanket yesterday and it worked like a charm. Didn't get cold once last night. Breakfast, clean up, then I watched two Soccer League games till lunch. Took a French lesson at 1400 then watched a football game till Appel. Studied my French lesson during the evening, talked with a new officer, then went to bed at 2230.

7 October 1944 (Sat)

Didn't sleep well last night because of my stomach. Breath is catching up with me again. Stand inspection at 1000 the my soccer team went out to beat the Lighthouse team 6-1. Frenchy got 4 & Spitzer 2. Then lunch. Talked with Ray Marnier for awhile then worked on this book till

1400 when I went out to watch some more football. The All-Star game is tomorrow. Appel at 1645. A bad headache developed during the evening so I went to bed early.

8 October 1944 (Sun)

Today has been a perfect day as far as the weather is concerned. Nice & warm. My soccer team beat the Cafe-Bakers 2-0 in this morning's game. St-Sauveur got both points. After the game I came in, took a cold bath then did my laundry, which brought me up to lunch. This afternoon the big All-Star Touch-Football game was played, regulation length, and the Redskins beat the highly-favored Bears 51-25. The Germans were on hand to watch. During the evening I wrote an account, in this book, of the game and read "Topper Takes a Trip" until bed time at 2300.

9 October 1944 (Mon)

Wrote a letter to Dot and acted as time keeper for two soccer games during the morning. Was informed I'm to play on one of the teams in the All-Star Soccer Game next Sunday. Lunch of German soup. During the afternoon Ceddes (OR with N.Y. Americans and captain of the "Rangers" our All-Star team) and myself went over the list of men we have and then worked out some plays. After Appel talked with Chaplain Glennon for awhile then came up to the barracks and fried some bread and green tomatoes for my supper. Read a part of a mystery novel in bed. Went to sleep around 2200.

10 October 1944 (Tues)

Got up early this morning and went to Mass. After breakfast I indulged in my favorite morning pastime and watched two soccer games. My "Passon" club is in second place in the league. Practised a little myself but I'm getting too old. The spirit's willing but the flesh is weak. Lunch. Read up till 1500 when hot water was delivered to us for afternoon tea. Went to the library and spent the time to Appel there. Then supper. Read some Benchley. Worked on my insignies and went to bed about 2230.

11 October 1944 (Wed)

Went to Mass at 0730, Appel, then breakfast. Kept time for two soccer-games during the morning. They moved lunch time up a little and I didn't know it so I missed. Fried some green tomatoes and toast with a little cheese. During the afternoon I read a while, watch some boring football and slept till Appel. Then supper. Spent the greater part of the evening working on this book, then got into bed about 2230.

12 October 1944 (Thurs)

452 years ago Columbus got to America. Went to Mass, then Appel, then breakfast. Watched one soccer game, participated in the second as my Passon team beat the Magnolia club 5-1. St-Sauveur got two, Chap-Henry two and I broke into the scoring column with one on a lucky shot. Practised awhile with the All-Stars then went to lunch. Read "The Star Lamb" by Thorne Smith during the afternoon. What a cockeyed story. Appel at 1645, then supper. During the evening I read "Scattergood Baines" and went to bed at 2200.

13 October 1944 (Fri)

Friday the 13th. Appel at 0800 and breakfast shortly after. Still eating my same old cereal. Ran the line for two soccer games in the morning and then took my hot shower at 1130. Reduced a pair of trunks from size 44 to size 32 before lunch. Have lots of pleats now. Lunch of soup. Read some more of "Scattergood" till 1400 then went to choir practice. We were issued hot water again at 1500 so I had a cup of coffee. Appel at 1645. Repaired an undershirt then went to supper. Read most of the evening and "retired" at 2230.

14 October 1944 (Sat.)

Saturday. Mass at 0730, Appel, Breakfast. Prepared for inspection and was inspected at 1000. At 1100 we had a surprise Appel, then had lunch. After lunch I went to the Library and drew a couple books. Watched an outdoor Basketball game for awhile and at 1500 had my afternoon coffee. Toasted some bread then went to Appel. Read till Supper. At 1900 went to see the "Little Theatre Group" performance of "The Man Who Came To Dinner" but due to a power failure about 2000 it had to be cancelled for the night in the middle of the first act. The lights continued to go on and off at intervals so I went to bed at 2130.

15 October 1944 (Sun.)

Got up at 0700, shaved, ate breakfast, stood Appel, sang in the choir at 0900 Mass. From 1000 till lunch I helped prepare the field for the soccer game. Read a little while then went to the game. What a treat it was. Wound up as a tie game but it was terrific while it lasted. Didn't play at all. Things were too tight. Went to supper at 1450 then came back and worked on my book. Went back to see the play that was interrupted last night. It's the best they've done. Had a little toast and jam then went to bed about 2300. Been here one month today. Time flies.

16 October 1944 (Mon.)

Went to 0730 Mass, then Appel and breakfast. Cleaned up our cubicle and went out to watch a couple soccer games. Came in at 1100 and made some jam from raisins and orange powder. I've transferred to the 3rd sitting so my lunch came at 1310. Read for awhile, watched some football, wrote to Dot & Harry & Mary then worked on my book. Supper. About 2100 nearly 150 new officer's arrived. 38 were sent to our barracks. It was well after 2300 when we finally got them set, answered a thousand questions, and got into bed.

17 October 1944 (Tues.)

Mass at 0730, Appel, then breakfast. My soccer team chalked up another win in the first game this a.m by beating the Olympic team 7-0 - Hennion, 2 - Miller 2 - St. Sauveur, 3 - (12). Watched the second game when the unbeaten Green Ribbon fell from the top of the league by absorbing a 2-0 defeat. About 1100 started work on a bunch of new rosters. After lunch went back to work and stopped at 1500 when coffee water came. After Appel, copied the music for a Requiem Mass to some regular music paper. Bupper, then Bill Geddes + Father Son came over and talked till 2030. Worked on some insignias, read a while then went to bed at 2215.

18 October 1944 (Wed.)

Mass, Appel, Breakfast in that order. Watched some soccer, then drew a #1 Red Cross parcel at 1000. Then saw the Celtics, league leaders, beaten 4-2 which puts my team in a 3-way tie for first place in the league. Made some jam from raisins + orange powder after lunch. Read till coffee water came at 1500. Put some of my dirty clothes to soak then stood Appel, during which Col. Coode assumed command of the 1000 Americans here. Supper, then do a swing concert at the theatre. Worked awhile on this book, and packed myself off to bed.

20 October 1944 (Fri)

Mass, Appel, Breakfast; the same as any other morning. Made up a couple of rosters then play a game of soccer. My club eliminated Nicetown from the running and IECU us tied for first place with Green Ribbon. Score - Passon 5 Nicetown 1 (Henson 2, Spitzer 2, Alderton 1) Lunch, Choir practise at 1400 after which I read till Appel. Supper and a quiet evening with "Mutiny on the Elsinore". Bed at 2230.

21 October 1944 (Sat.)

Same early morning routine. Today was inspection day so quite a bit of time was spent in preparing ourselves and the cubicle for it. The Inspecting Party got to our barracks at 1100. Kicked a soccer ball around for about an hour, then had lunch. Read till 1500 when I ate my first piece of pie here in camp. We made it from a D-bar, milk, margarine, sugar & crackers. Very good. Went to the library and drew some books then went to Appel. Read till supper, then went back to see "GW slept here". Read till bed time.

22 October 1944 (Sun)

Sunday and one of the nastiest days we've had. It was foggy, rainy & cold. Inside the barracks we had to keep on all our clothes to stay warm. Appel was at 0900, then sang in the choir at Mass. Read till lunch. Spent the whole afternoon reading "In Bed We Cry" by Ilka Chase. Supper. Wrote a letter to Dot and a card to the Billingsleys. Then started "A Tree Grows in Brooklyn". Certainly am catching up on my reading. Went to bed at 2230. About 50 of us were late for Appel this afternoon so we had to march around the perimeter of the camp for 30 minutes, all the while being good-naturedly hooted at by the rest of the camp. We've learned our lesson.

23 October 1944 (Mon)

Mass at 0730, Appel then Breakfast. Weather continued nasty all day. Pasted a few things in this book after breakfast, then braved the elements to watch a soccer game. The field was full of mud. Lunch. Read for awhile then went to the library. Appel at 1645 and this time we were all there on time. Supper then to Benediction at 1900. Read the rest of the evening and went to bed at 2130. Tomorrow we play the Celtics and have to beat them to stay in first place. There are no more Red Cross Boxes. That's going to hurt.

24 October 1944 (Tues)

0730 Mass, Appel, breakfast. It's still raining so the soccer game was called off. Worked awhile on this book then read till lunch time. About 1000 the Germans searched our barracks but as far as I know did not take anything. Lunch. Choir practice at 1600. Tea (German coffee) at 1500. Read till Appel. Supper. Benediction at 1900 after which I saw Capt. Morford who lives at 218 W 17th St. Wiln. Came back, got into bed, and read till 2000. Sleep.

25 October 1944 (Wed)

Mass, Appel, Breakfast (rather thin now) Ran as linesmen for two soccer games during the morning. Had a surprise Appel at 1100. Came back and read till lunch. Had a headache so I stayed in bed nearly all afternoon. Got cold as the devil during the afternoon and I don't have an overcoat. Put my long-johns on. Supper, Benediction then I tried some green tomatoes. Went to bed with a book at 2030. Sleep about 2230.

26 October 1944 (Thurs)

Dedicated to
My Darling Wife

I hope these various insights into my life in
Oflag 64 will partially make up for months during
which we couldn't write. I missed you very much
my darling.

T.V.S.

15 September 1944

then lunch. Watched a football game, came in and read awhile. Col. 19-sec
puzzle and worked on it till Appel. Supper was served in the barracks at 1700.
Benediction then the puzzle till bed-time at 2200.

27 October 1944 (Fri)

First frost of the fall. Everything was white. Cold as heck this am.
Mass, Appel, Breakfast, then a harriet at 0910. My Passon team beat
the Blue Bells 2-1 in our hardest game of the season. St. Saviour and I each
got one point. Read till lunch. Choir practice at 1400. Worked a 19-sec till Appel.
We got a new officer, Lt. Mason, in our cubicle so we talked to him till supper.
Benediction at 1900 cleaned up my locker for tomorrow's inspection, then went
to bed with a book. Sleep at 2200.

28 October 1944 (Sat)

Raining today. Mass, Appel, Breakfast, then preparation for Inspection.
Col. Schaeffer made it and pronounced the barracks excellent. Cut up some rutabagas
and green tomatoes for some soup then went to lunch. Capt Eldridge and I wasted
a couple hours cooking our soup but the results at 1500 were worth the effort.
Read till Appel, then afterwards till supper. Benediction at 1900. Read till
lights out at 2300.

29 October 1944 (Sun)

Sunday. Breakfast at 0800, Appel at 0900 then to High Mass at
1030. Returned, made out the duty roster for November, and cut up some more
rutabags and green tomatoes for our soup. A friend of Capt Eldridge's came up
with some leeks and 5 bouillon cubes to add to the brew. We invited him up
to share it. Lunch. Read awhile then cooked the soup. It was delicious. Sat
around talking till Appel which has been set back from 1645 to 1615 due to the
shortness of daylight. Afterwards I finished one of the best books I ever
read - "Drivin' Woman" by Elizabeth Pickett Chevalier. Something on the order of
"GWTW." Supper of Spam, potatoes and greens; the last good meal till we get
Red Cross parcels in. So far no news. German ration, here we come. Had
my first piece of gum in over 3 months and had a cigar given me during the
evening. Both came in private parcels from home. Benediction at 1900. Listen-
ed to a batch of new Swing records which have just arrived from England. Fats
Waller, Duke Ellington, Count Basie, Artie Shaw etc. They sounded swell. I know what
music-starvation is. Worked a little while on this book, and when the lights failed
at 2130 I went to bed.

30 October 1944 (Mon)

Very cold and damp today. Mass, Appel, Breakfast then clean-up.
Started another book but had to go out and move around to keep warm. Till lunch
we stood around and talked of a lot of things, mostly what we're going to eat
when we get home. Lunch. Then choir practice at 1400. Had 4½ a bouillon cube
for my 1500 snack, then wrote a card to the Billingsleys. Appel at 1615, then
supper at 1700. Benediction at 1900. Climbed in bed with a couple magazines at

Bashed at 2100 then to bed.

18 December 1944 (Mon)

22° Mass, Appel, Breakfast, clean-up for an inspection of the camp by a German General, which didn't materialize. Cut up our prunes for Xmas pudding. Lunch. Arranged a detail to help decorate the barracks, then cut up some firewood. Read till tea time. Shaved. Appel. Supper. Fixed breakfast then went to see "Swingology." Maj Hansen was terrific. Ate a little snack then went to bed.

19 December 1944 (Tues)

30° My birthday this time. Mass, Appel, Breakfast, cleanup. Cracked open all our prune seed and took out the meat. Diced them and fried them in margarine. Taste like almonds. Traded 12 crackers for 2 day bread ration. Lunch. Choir practise. Tea at 1500. Washed and stood Appel. Visited Fr Bruch for awhile. Supper. Pete and I grated up bread for our puddings. Ate a little at 2100 then went to bed.

Mixed up pie and pudding batter then went back to see "Swingology". Bashed and then to bed.

21 December 1944 (Thurs.)

21° Shortest day in the year and one of the nicest. Cold but clear. Germans have started a big drive against the 1st Army. Mass, Appel, Breakfast. Worked all morning cooking two puddings (prune + chocolate) and a pie (comb. prune + chocolate) for Xmas day. They certainly do look delicious. At

1100 our Xmas Red Cross parcels arrived complete with turkey, deviled ham, vienna sausage, jam, honey, plum pudding, preserved butter, cheese, nuts, candy, cherries, dates, fruit bars, chewing gum, a pipe, Prince Albert, checker set, 3 pkgs cigarettes, and two pictures, tea, bouillon cubes and a face cloth; something just about as valuable to me as food. In gloating over my early Xmas present I was almost late for chow. Put a nut-and-PW delight icing on my pie then sampled both the nuts and the candy from my box. The Lord is certainly taking care of us. Traded a D-Bar for 1 lb can of margarine. Pete and I both love it so we eat it "promiscuously" (?). Worked on this book for awhile pasting in it some of the labels from the food in my box. Tea at 1500, shave and Appel. Smitty came over so we talked till supper. Prepared my breakfast. Helped with the cooking of some more Xmas stuff. Pete & I ate one of our puddings at 2100, along with nearly all of our nuts and candy. Temptation was just too much. It's been too long since we had anything like that. The lights went out early so we all got into bed and sang Xmas Carols till 2330. I was too full to go to sleep.

22 December 1944 (Fri)

14° but a very sunny day, and pleasant. Mass, Appel, Breakfast cleanup. Spent most of the morning decorating the cubicle with red, green, blue and white crepe paper. Finished off my nuts and candy in anticipation of a search. Was pretty full at lunch time, but ate my soup anyway. News says the Germans are still going strong in their counter-drive. Worked on this book for awhile then had choir practise. Tea at 1500, wash and Appel. Pete & I decided to make a date pudding so we assembled the ingredients (3/4# dates, 12 prunes, 1/3 D bar, 6 lumps sugar, 1 tablespoon margarine, pinch of salt, 1/2 day bread ration + 2 medium sized potatoes) Supper was potatoes (period) at 1730 in barracks. We cooked our pudding successfully and at the same time ate the second one we had cooked yesterday. We just can't seem to be able to stay away from the sweet things. Cooked up some of the vienna sausage because already it has started to mildew. Got into bed early because my feet still insist on getting cold and staying that way. Sleep about 2230.

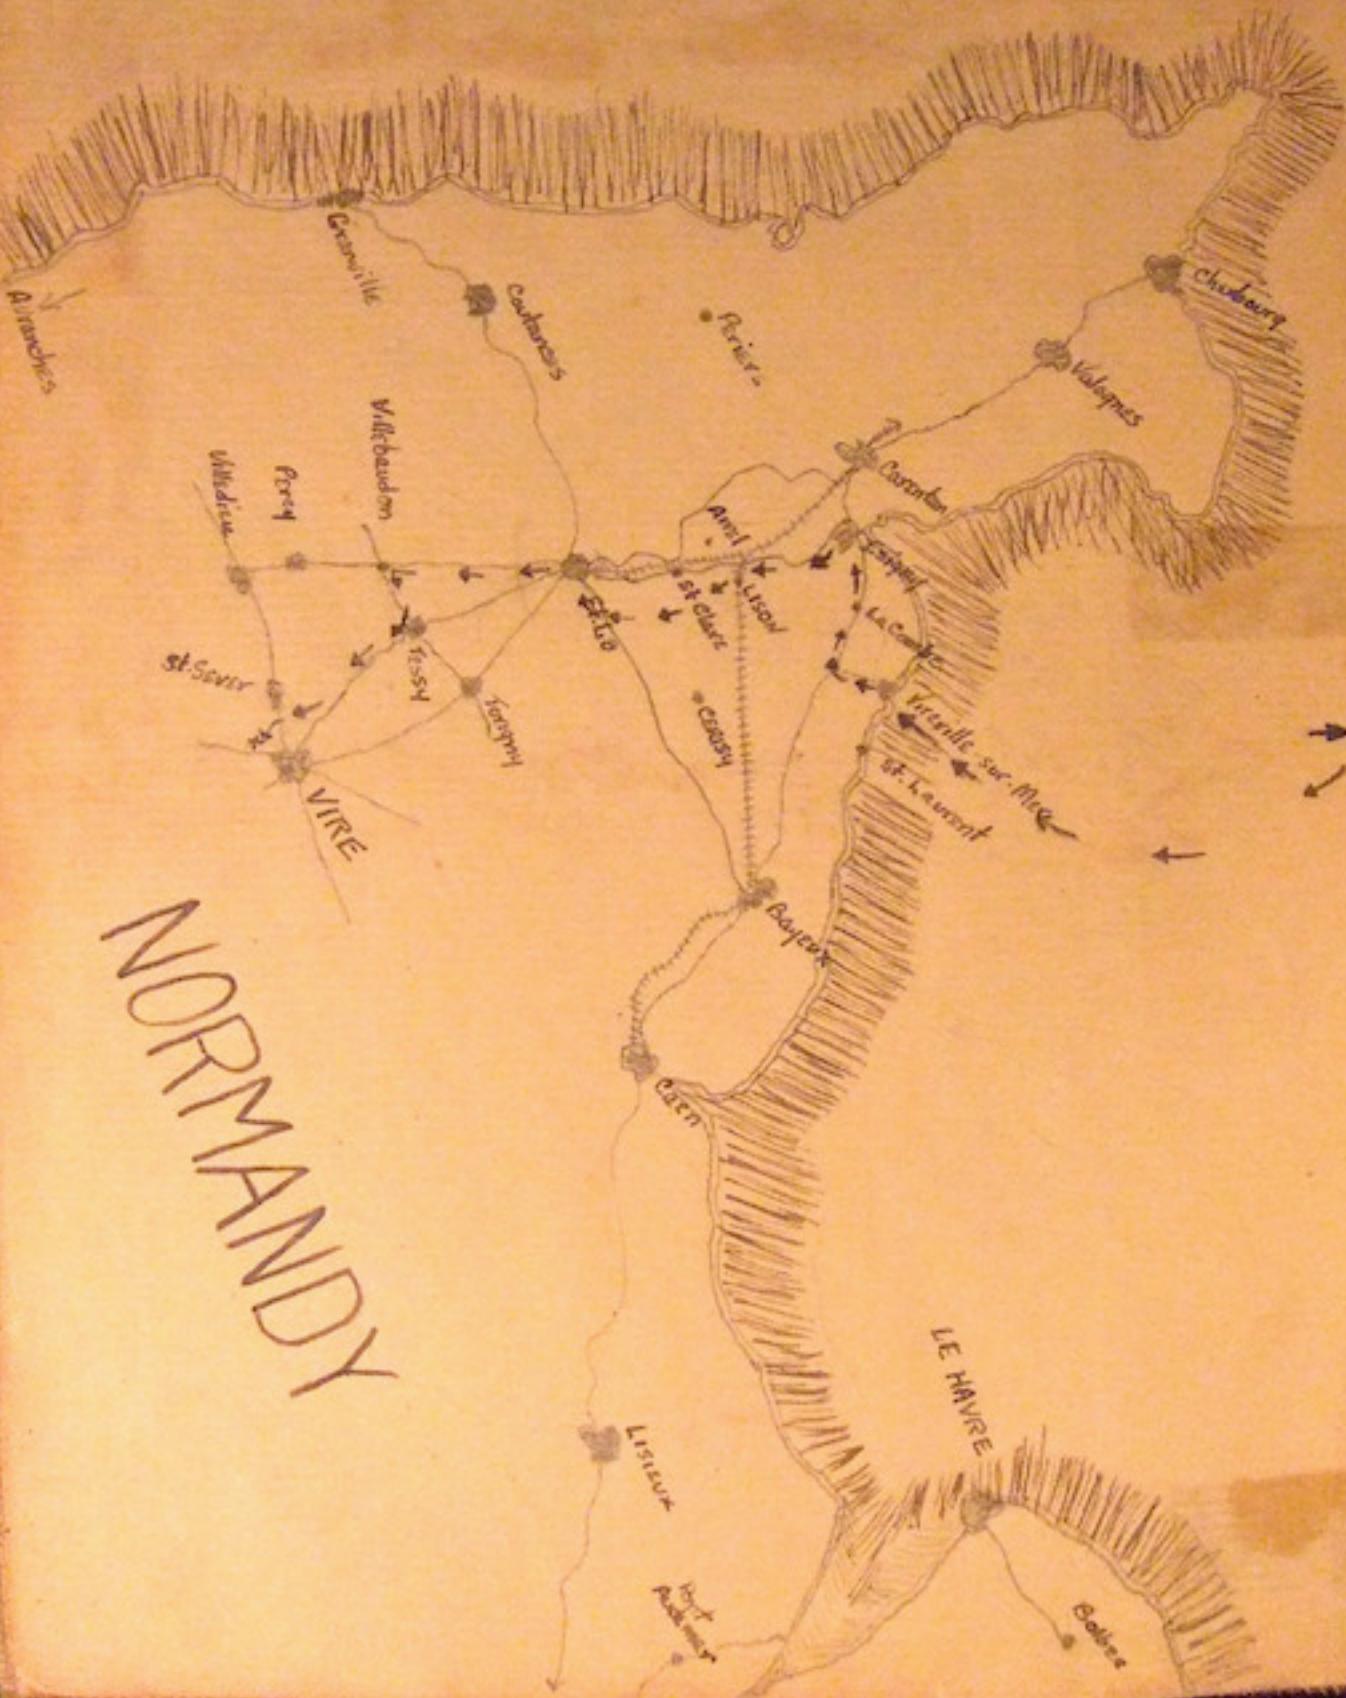

23 December 1944 (Sat.)

10°, very cold but still dry and clear. Mass, Appel, Breakfast and cleanup for inspection. At 1000 we had a surprise Appel followed immediately by an inspection by Col. Colder. Not so good this time. Too many preparations for Xmas, I guess. Our turkey, 12 oz cans, were issued, then lunch. Spooned out the center of our pudding and stuffed it with cherries. Mac & I did a little decorating in the Chapel. Worked on this book till 1500 tea. Washed. Appel. Removed our turkey from the cans to keep it from going bad. Supper. Tried baking a potato-salmon concoction, by just placing it in against the fire in the stove, and it came out wonderfully. Prepared breakfast (cereal tomorrow). Had a little to eat about 2100, then went to bed. It's very cold tonight.

24 December, 1944 (Sun)

15° Sunday & Xmas Eve. Still sunny and cold. Breakfast, Appel, Mass then to Fr. Brach's room to help make some more crepe paper flowers for the altar tonight. Lunch. Went to the library with Pete and on the map enlarged the trip I'm going to take when I get home to include Toronto. Read till tea at 1500. Washed, then stood Appel. Read till supper then again till 1930. Went to the mess hall and helped set up and decorate the altar and the crib for Mass. Left at 2200. Ate some grilled cheese sandwiches, piece of pie and drank a cup of coffee. Washed, changed clothes and went back to the mess hall at 2300. The choir and Glee Club sang carols before mass. (Rest of the 24th on next page.)

"Das Große Raus"

(sat.) 20 Jan 1945 - Shubin to Luckenwalde - 1 Feb. 1945 (thurs.)

Saturday, 20th of January was a clear cold day. Went to Mass at 0730 stood Appel then had breakfast. Cleaned up for our regular Saturday morning inspection. About 1000 Col. Skells was called to a Barracks Commander's meeting at the white house. When he returned it was with the news that, due to the Russian drive, Oflag 4 was to be evacuated, by marching, on Sunday morning, 21st January. We had heard rumors of such a move previously, but still the actuality of it filled us with certain misgivings. The weather under foot was bad and it would be no easy journey. Cold weather is no friend of wanderers. Reception of the news caused one of the greatest examples of mass bashing in the history of the camp. We were told to take only those articles we could carry, with food and clothing on the highest priority. All day we packed, threw things away, then repacked, with numerous pauses for food. In the afternoon a complete Red Cross parcel was issued to each man. More food than I've seen in a long time. I stuffed my pockets, hat, trousers and the linings of my clothes. In the evening we had a church service, then visited with the Chaplains for awhile. We went to bed that night in all our clothes and with full stomachs.

At 0730 Sunday we went to our last Mass in Shubin. Father Glen-non officiated and gave us General Absolution + Vaticum. Had a hasty breakfast. At 0845 the Appel bell rang for the last time and we moved out of the barracks with all our equipment. After being counted five times and getting thoroughly chilled from standing in the snow, the Commandant, Col. Schneider, spoke to us, thanking us for our cooperation at camp and advising us not to try to escape. We did a right face and marched out the gate. We left behind among 97 men who could not march, Smitty + Fr. Brach. Also abandoned were 10,000 red cross parcels. That hurt worst of all.

Cox's Army had nothing on us. Never have I seen such a complanation of makeshift packs as we carried. Some men had foresight and had built sleds out of odds and ends; others carried everything, including two blankets. I had made a pack from a German pillow cover with two towels sewed on as straps. This I carried on my back. Across my shoulder was a long two-blanket roll with my extra clothing inside. Every one of my pockets was filled. In my pack were two R.C. parcels full of food, this book, toilet articles, etc. Altogether I carried about 35 or 40 pounds. I wore 2 suits of underwear, 2 complete O.D. uniforms, a denim jacket, combat jacket, overcoat, 2 hats and a scarf. How I moved is still a mystery.

Outside the gate the column (1408 O. + EM) turned west on a road covered with about 4" of ice. Streaming along with us were wagon train after wagon train loaded with refugees, moving back to Germany. Col. Coode was in the lead with the German Commandant. The guard company was strung out on either side of us on the shoulders of the road. The march soon became a nightmare. Lack of exercise began to tell on many of us. The ice on the road made it worse. Before two miles were covered, many men were dropping out to fix sleds, readjust equipment or just to get a rest. Our feet kept getting colder, owing to the disarray. (Temp. 15°) We covered 21 kils that day and arrived at a farm outside LUXIN about 1730. We were quartered in three big barns which had plenty of hay. No one wasted any time digging a hole and climbing into it. In no time we were asleep. During the night Col. Millett and about 50 others escaped.

The guards woke us at 0530 on the 22nd, saying we'd be ready to leave at 0630. It was bitterly cold and damp. A Polish family near our barn fed us

some bread with lard and jam on it and some very hot ersatz coffee. For once I welcomed it. At 0830 we shouldered our loads and hit the road again. Many packs were lighter. We found we didn't need some things as badly as we at first thought. I threw away a couple books, all my extra clothing and numerous odds and ends. We were all pretty stiff and sore. No one knew our destination but after 28 grueling kilos we arrived in EICHEFELDE. They found a couple barns for us again. I was so tired and stiff that I just made it. Again the Polish people fed us. We got bread, immense cheeses and some delicious hot pea soup with fresh pork. I slept very well that night.

We awakened at 0730 on the 23rd to find ourselves free men in the heart of Poland. During the night the Russians drove got so close that our German guard Company took off for the rear. That caused a change in plans. We reorganized into a regular U.S. Army unit. Many more men took this opportunity to get away altho the GAO advised all of us that it would be better to stick together. The Poles butchered hogs for us and started preparing us a meal. We hung around the barn all morning drinking coffee and marvelling at our newly-given freedom. It turned out to be short lived tho. At 1315 a truck-load of SS troops drove into town and we were prisoners again. They reassumed command and started us on the road again to the rear. We didn't get a chance to eat the meal the poles were preparing. My legs refused to function so I was left back to ride the distance of the march (7 kilos) to Charlottenburg. Here I had my first comfortable night. They quartered the "cripples" in a house, two rooms of which had big fires going. Space was cramped but warm. The temperature outside was nearly 0°. We were fed some oatmeal about 2000 then went to sleep.

At 0730 on the 24th we received a small portion of pea soup then started marching at 0930. The sound of firing was very near but never quite near enough. We hiked thru a snowstorm to reach Lobsens about 1600, a distance of 16 kilos. Here we caught up to our old guard company and were quartered again in a big barn. We were allowed to build fires so we spent the evening huddled around fires and drinking hot coffee. Pretty miserable crawling into bed. My knees were killing me.

We crawled out of our holes about 0700 on the 25th. More snow. Had breakfast from my R.C. boy then the Germans issued bread and cheese but there wasn't enough to go around and I was unlucky. About 1000 we moved out, this time cross-country. At 1330, they tell us, we crossed the German border. We covered 22 kilos that day and arrived in Flatow at 1640. Here we passed a British column marching from Posen. They billeted us in a couple big barns on the outskirts of the city. Again I just barely made it.

While fixing breakfast on the 26th, the Germans told us we would stay there all day. I went on sick call at 1000 and Major Rock told me to join the sick group. In front of the barn where sick call was held lay a dead Russian who had frozen to death. At roll call 962 of us were left out of the 1408. The sick group was called together and told that we were to get rail transportation from Flatow. They fed us potato soup at 1300 and at 1420 we started the march to the station. We were a sad looking lot hobbling thru town. 41 of us were crowded into a gondola coal car. Before getting into it we had to clear the floor of 6" of snow then stretch a tarp over the top as a roof. It was very cold inside. We made the best of the straw we got. Huddling close together (we could do nothing else) we kept each other warm. About 1830 the train moved out and travelled intermittently through the night. Another famous box-car ride starting.

The morning of the 27th found us buried under a foot of snow in a yard at Lupnow. From then until the morning of 1 February when we detrained at Luckenwalde we moved, shifted and waited thru various sledings in Germany. We passed thru Jastron, Deutsche Kromm, Armsvalde, Stettin, Berlin, then Luckenwalde. We were allowed out about once a day; otherwise we sat and stared at each other. Rations for 3 days were issued for the 6 day trip. The canvas over us was torn in several places allowing water to run in on us whenever the snow & frost melted during the day. Drinking water was scarce so we ate snow. We were very cramped and after the first day, sore from sitting. The hunger was the worst thing to bear. Many of us got SEVERE colds from the dampness. We stayed in the yards at Berlin nearly 24 hours and there it started to rain, making us wetter than EVER. But eventually we arrived at Luckenwalde and walked to Stalag III A. Here we were deloused, showered, searched, registered and fed. They quartered us in a Barracks (14) with some old Polish Officers, a few Italians and some French. We were hospitably received by these men and after getting settled, we went right to bed. Another step nearer home.

Lots of things I've omitted here due to lack of space. Only someone who has been on one of these trips can appreciate the hardships of it. We're all far from being licked.

14 April 1945 (Sat.)

What a day this has been. The weather was beautiful, very clear & sunny. Mass, Breakfast, Appel. At 1000 the R.A.F. boys started coming back from the station. The Germans haven't got the transportation to move them. Many of them took off. The stories they told were interesting. They stole coal from the engine & traded it to the people of Wittenwalde for bread. They had practically a free run of the town and the guards didn't seem to mind. One story says that some German civilians wanted to surrender to a group of them during the night. Were glad to see them back. Now they won't move us. Till lunch we welcomed back our friends Pea soup at 1330. Com communication puts our troops only 30 miles from us. About 1530, two groups of 47's came over and dive-bombed & strafed something just SW of us. Rumors are running like wild fire. Appel. Supper then a parcel issue. Choir practice for us at 1900. Had a cup of coffee and visited Ross for awhile. To bed at 2230. At 2345 the alarm went. We heard the planes going over and the first bomb dropped nearly blew us out of bed. We all got up to watch. It was a very heavy raid on Potsdam, about 10 miles from us. Flak was terrific but we didn't see a plane go down. The raid lasted nearly 1/2 hour. Lord help the people under it. When it quieted down we all went back to bed. Come on, George!

19 April 1945 (Thurs.)

Sunny with high winds. Mass, Breakfast, Appel. Took a walk with Angus and then had a brew. Watched 272 (we counted them) B-17's bomb something about 20 m. SE of us. Lunch was very thick pea soup. S. + I had Frank and Fr. C. over for a soup bash from S's personal parcel. About 1600 saw a smoke screen being laid far to the SW. Appel. Rosary. Coffee. Spent the evening with Len recalling famous swing records & bands. To bed about 2230. (Situation map shows the Russians & Americans near a link-up at Dresden. We're really sweating this one out.)

20 April 1945 (Fri.)

Hazy and chilly. Mass, Breakfast, Appel. Sweat out another order to move. Coons say Russians are close. Angus spent the morning here. Spectator at Smitty's baptism. Listened to another jam session till 2200. To bed, hopefully.

21 April 1945 (Sat.)

Cold and drizzly. Woke up to hear artillery falling near Luckenwalde. Mass, Breakfast, Appel. Coons dive-bombed just SW of us, fairly near. No order to move yet. All sorts of rumors. Hung around outside just waiting for something to happen. Lunch was pea soup. At 1300 the Coons took off leaving us in possession of the camp. Guards were immediately posted to prevent looting. The Russian ps.o.w. went wild. I went over the wire to the EM compound and assisted in organizing them. Came back at 1600. Made a chocolate pudding. Firing all around us. They dug-in 2-150's near the hospital. Made the round of all the Kriegies. Took what I hope is my last cold shower. Went back to the EM and met Betsey. Cen. Ruge ordered us inside. Coons expected a fight. Every body was pretty jittery at bed time. The water went off, but miraculously the lights stayed on. We still half-way expected the Coons to come back as they did once before. No one undressed for bed. German planes came over just after dark and remained continuously nearly all night, once strafing just off the camp, scaring us half to death. What I'd give to be out of here. We've been lucky so far. There has been shelling and dive-bombing all around but so far no hits. I wonder if our luck will last.

At 0555 a Russian reconnaissance car drove into camp with an officer in command. He told us that Russian forces had surrounded the camp and that we were free men again, altho Germans were still in the vicinity. He took Col Herte & Gen. Ruge to Lueckenwalde to meet the Russian commander. On the way a German armored car fired at them causing the Russians to take to the ditch. Col. Herte got back safely. Gen Ruge went on to the rear. At 0700 A flock of Russian planes came over. I, + I had a brew to quiet our nerves. Went to Mass at 0815. Walked across to the tent compound to see the men. They were all in high spirits. At 0915 a Russian half-track, loaded with soldiers drove thru camp looking for Goons. They were a rough-looking lot. Certainly am glad Russia's our ally. At 0950 five T-34 tanks loaded with Infantry and eight truck-loads of soldiers came into camp and let the Russian prisoners loose. They looted every thing in sight, especially the food stores. They streamed out of camp carrying all sorts of things. Had some more coffee. The camp was wild with excitement. From 1030 to 1200, made the rounds of all my friends congratulating and being congratulated on our good fortune. At 1300 took command of Company #25 4th Bn, 1st Foot. Ex-Pow Regt, and spent the rest of the afternoon getting some sort of organization started. At 1700 we had chow. The Russians sent in 15 beers, carloads of spaghetti and potatoes. Went back to the company for about an hour. At 1900 a Russian Lt. Col. visited us, assuring us of an abundant supply of food, water and lights. He posted a company of Armored Infantry around camp for our protection. Rather slow move us to the East, he told us it had been decided to keep us here till a link-up is made with the Americans. The link-up was made tonight but not on a wide front. Ted, Frank, + Jack visited till about 2130. Had some more coffee then got into bed. What a day this has been. I want to get home now.

23 April 1945 (Mon)

Today the reaction set in. Everybody's browned off at the delay in moving us. Has rained for the last three days. Had a quiet night. Stood reveille at 0730 with the company and talked to the men. Mass at 0815. Breakfast. Worked all morning in the orderly room. Co. Comm. meeting at 1330. Came back to the Officers Barracks at 1700. Supper. A few visits then to bed. I was pretty tired. Shouting during the night, on some buildings nearby.

24 April 1945 (Tues)

Still rainy and cold. Was up most of the night. Never can tell when these Goons might take a notion to strafe us. Stood reveille Mass, Breakfast. Spent nearly the whole day putting my company on paper, then on the ground. What a collection of misfits. Lunch was thick pea soup. For supper Si + I cooked rice + potatoes together with a couple bouillon cubes. Betley visited awhile. Issue of 1/4 Canadian parcel. Bashed a little then went to bed about 2130.

25 April 1945 (Wed)

Nice warm day for a change. Mass at 0700, Reveille then Breakfast from the Canadian parcel. Spent the morning at the company. All of us are getting impatient to move out of here. This isn't the safest place in the world. Listened to some American programs on the A.E.F. Network of the BBC from London. Commandeered Goon radio. Soup. Due to lack of sleep last night because of raids, I slept all afternoon. Supper. Good coffee for a change. Betley came over then I went to bed about 2230. Clocks up one hour.

26 April 1945 (Thurs)

Another sunny day. No air-raids so I slept right thru the night. Mass, Breakfast. Made out a roster of the company by platoons. (Kendrick, Miller, Vaden, Fredrickson, Reeves, O'heary, Purks.) Soup + spuds at noon. Si + I had gingerbread hot cakes at 1500. No more coffee. Slept a while then a Kraft cheese dinner. Listened to the radio all evening; Bing Crosby, Command Performance etc. Bed at 2230

27 April 1945 (Fri)

No air-raids again last night. Mass, Reveille. Breakfast. Went to the company for awhile then did my laundry. Lunch was Kolarabi soup. Si + I had some more pancakes. Read a while then went to the Company. Fried spuds for supper. Had visits from Ross and Frank, then a brew with Sock. Co. Commanders meeting at 2100. Returned and went to bed after taking a bath.

28 April 1945 (Sat)

Rainy all day. Mass, Reveille, Breakfast. Spent the morning hanging around the Company after a company commanders meeting. Lunch was pea soup. Read for awhile then had an impromptu talk-session with the men. We're all pretty discontented. Si + I fried some potatoes for supper. Ted visited awhile then I listened to a jam session till bed time at 2300.

29 April 1945 (Sun)

Very chilly today. Paying now for the nice weather we had last month. Overslept so I had breakfast then went to Mass in the French Chapel at 0915. Si + I had some coffee about 1030 then I read till lunch. Pea soup. Read all afternoon. Had fried spuds + some Coon meat for supper. At 1900, Si + I went to see an Operetta "Enlevez-moi." It was excellently done. Returned at 2230. Got right into bed. Russians say there is no immediate prospect of our leaving. This can't go on much longer or we're all going to walk.

30 April 1945 (Mon)

Very busy day. Mass, Reveille, Breakfast. Spent the morning at the company, not doing anything in particular. Read part of "Green Dolphin Street." Lunch at 1200 of pea soup. Had a row with the Regt'l. Ex-O. about some reductions. At 1610 got the word to prepare to move from camp. Had barley porridge then marched out of camp. Moved cross-country to the Adolph Hitler Lager near Jütterbog. Got the men billeted then went to bed myself.

1 May 1945 (Tues)

Pretty chilly today. Got up at 0830 and had breakfast. Spent the whole day riding herd on the men and getting the quarters in shape. This must have been a pretty important place from the switch-boards, radios, cameras the Coons smashed up. Had trouble with the frogs. Quit work at 1700, sat down and had a nice meal Ken fried. We found a lot of dishes so its pretty nice to eat like a human being again. Sat around the whole evening just fooling around. To bed at 2300.

2 May 1945 (Wed)

Has been a nasty day. Cold and rainy. Woke up very early to hear artillery and small arms fire close by. Scattered groups of Coons are still in the woods around this place. Breakfast at 0845. Went to the company for awhile, then to Bn. Had lunch of pea soup in the mess hall. Drew my rations at 1200 at the Co. Read awhile then came back to my room for supper at 1730. Did some KP. Rumor says we're going back to Luckenwalde tomorrow.

3 May 1945 (Thurs)

That rumor about us moving was true, but why, we still don't know. At 0700 we were rudely awakened and told to be ready to move back to III A at 0900. The boys were pretty mad about the whole thing but they got ready in time. The march back wasn't bad. We arrived here at 1130. First off, we found the Italians in possession of our barracks and after mediation failed the Company went in and threw them out, bag and baggage. We got chow from the kitchen and fed everyone. I came to my barracks, made up my bunk and slept a couple hours. Visited Doug, Ted + Frank for awhile. At 1800 a jeep drove into camp with Lou Azreal of the Baltimore New-Post. It was hard to get near him but when I did he recognized me and it was just like old home week. He invited me down to where he was staying and I talked to him until 0200. He told me about the Division which is only about 35 miles from here and all the people we knew. He took a letter for Dot + one for home and promised to mail them when

he gets home in about 10 days. He offered
to take Slungluff + I back with him to the
29th but Col. Herte ordered us to stay. I'm
tempted to take off anyway. We returned to
our quarters pretty happy to have seen a real,
live, free American and one we knew as well.
Sleep was pretty hard coming.

Over slept Mass & Reveille. Had breakfast then worked on my book for a while. Went over to the Company, to find I had a mutiny on my hands. The boys, and I don't blame them, were leaving by the tens. They've put up with as much of this persecution as they can take. The powers that be ordered old NCO's to be reduced in grade, threatened them with court martial and forbid anyone leaving camp. You just can't treat old kriegies that way. I got what remained of the company together and told them about how Arrested and Ed. Beattie. That quieted them for awhile. Came back for lunch. At 1400, 4 jeeps from the 125th Rec. Sqdn. drove into camp with information that trucks will be here tomorrow to start evacuating us. This was a happy day for us. The Russians don't want us to take the Norwegians with us but the powers decided to sneak them out. Were afraid it's going to lead to trouble. But that's our Administration. After the jeeps left I came back and visited Doug

THIS ENTRY, 5 May 1945, WAS THE LAST I WAS ABLE TO PUT INTO THIS BOOK; HOWEVER, FOR THE NEXT FEW WEEKS WE STAYED UNDER RUSSIAN CONTROL. RUMOR HAD IT THAT WE WERE NOW POLITICAL PRISONERS BEING HELD TO GET MORE CONCESSIONS FROM THE AMERICANS AND THE BRITISH CONCERNING THE SPLITTING UP OF GERMANY AMONG THE ALLIED POWERS. I BELIEVE THAT RUMOR WAS TRUE.

THE RUSSIANS FED US WELL AND, TO MY KNOWLEDGE, DID NO BODILY HARM TO ANY OF US. OCCASIONALLY, AN AMERICAN GENERAL WOULD APPEAR IN CAMP, A COMPLETE ROSTER OF ALL AMERICANS WAS PREPARED AND DELIVERED TO AN AMERICAN COLONEL ON ONE OCCASION BUT WE GOT NO WORD ABOUT MOVING. THE BRITISH ASSEMBLED AND TRIED TO MARCH OUT OF CAMP BUT WERE TURNED BACK WITH A SPRAY OF MACHINE GUN BULLETS OVER THEIR HEADS. SO WE SAT AND WAITED.

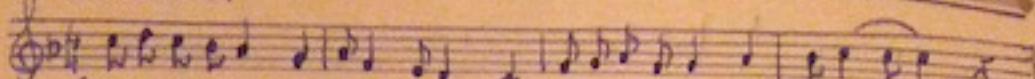

ON OR ABOUT JUNE 1, 1945 A CONVOY OF STUDEBAKER 6X6'S CAME INTO THE CAMP, INTO THE AMERICAN AREA. THEY WERE LEND-LEASE TRUCKS SENT TO RUSSIA BY THE U.S. WE GOT 30 MINUTES TO PREPARE FOR THE MOVE, BUT THAT WAS 25 MINUTES MORE THAN WE NEEDED. WE ON-LOADED AND AFTER THE WILDEST RIDE I'VE EVER HAD (RUSSIAN DRIVERS HAVE ONLY ONE SPEED - FAST) WE ARRIVED AT A CHECKPOINT. AFTER MUCH BICKERING, WE OFF-LOADED AND WALKED ABOUT $\frac{1}{2}$ MILE INTO THE AMERICAN 106 INF DIV HQ - THE GREATEST SIGHTS AND SOUNDS I THINK I'LL EVER EXPERIENCE. WE WERE FED AND GIVEN BUNKS INTO WHICH WE ALL COLLAPSED AT ONCE.

THE NEXT MORNING WE TOOK OFF ALL OUR CLOTHES (ALL OF THEM), THREW THEM INTO A BONFIRE AND WALKED INTO A $\frac{1}{2}$ HOUR HOT SHOWER WITH DE-Lousing SOAP. WE CAME OUT THE OTHER END DE-LOUSED AND CLEAN. WE WERE ISSUED NEW CLOTHING, FED WELL, AND WERE DRIVEN TO AN AIR FIELD NEAR RHEIMS, FRANCE. ~~WE~~ WE DISMISSED AND WERE AGAIN DRIVEN TO A BIVOUAC AREA NEAR LE HAVRE. ON JUN 20 1945 WE SAILED FOR HOME ON THE USS ADM. MAYO, ARRIVING IN BOSTON ON JUN 24. WE WENT BY TRAIN TO FT DIX WHERE WE DRAW OUR PAY AND A 60-DAY LEAVE. I GOT HOME ON JUNE 26 1945

The heart in the pack

1. Once a maiden heart was beating
boom, boom, boom

Longing for escape from sadness,
Tired of worldly joys so fleeting
boom, boom, boom

Sighing for a lover's gladness.
Then along the road a soldier came marching
Heard the lonely song this heart sang,
Put it in his pack, in pity, boom, boom, boom
There to beat as he kept marching
- boom, boom!

2. Soon he heard the call to battle
boom, boom, boom,

Heard Death calling for a meeting
Through the woods and fields of cattle
boom, boom, boom,

Such is every soldier's greeting.
Yet he smiled as shells fell round him
boom, boom, boom,
Marching on, each for defeating,
For inside the pack he carried boom, boom, boom
Still that other heart was beating,
- boom, boom!

Refrain: Here's a song for you, my darling,
As I march in battle line
For perhaps your heart is weary boom, boom, boom,

Loving hopelessly, like mi-me.

You may never find your lover
Though you weep the whole night long,
So my heart will sing to your heart

Hoping you may hear its song - Boom, boom!

thrown by lot into alien surroundings; in understanding of our feelings and longings for home and our native lands; and in remembrance of our mutual artistic efforts and our last Alleluja here, I put down this, my composition, so that perhaps someday, beyond the ocean far from Poland, it may sound joyously for God's Glory, and may it inspire fond memories of our friendship

ON BEING A PRISONER OF WAR

It is a melancholy state. You are in the power of your enemy. You owe your life to his humanity, your daily bread to his compassion. You must obey his orders, await his pleasure. The days are long—hours crawl by like a centipede paralysed. Moreover the whole atmosphere of prison, even in the best and most regulated of prisons, is odious. Companions quarrel at nothing at all, and get the least possible pleasure from each other's company. You feel a constant humiliation at being fenced by railings and wire; watched by armed guards and webbed by a tangle of regulations and restrictions.

Winston Churchill, 1899

No—the life of a prisoner isn't easy. The uncertainty that assails your thoughts daily prevents any peace of mind. You wonder about your family and loved ones and if they have changed; what your friends and acquaintances think of you being a prisoner; and the million and one thoughts that only the mind of a prisoner of war ever touches. Your dreams of home and the awakening to the realization that, to come true, that dream depends on so many things over which you have no control; the periods of high hopes and the inevitable, and usually sudden, drop to the lowest depths of despair; all these things can only be appreciated by one who has experienced them in the hands and at the mercy of his country's enemy. This *is* Hell. He, who has served both as soldier and prisoner will ever bear witness to the truth of that statement.

Dear Friend,

When the folks at home ask us to choose and send you something special on their behalf, they confront us with a not-too-easy problem. The "War-time Log" is one solution - others may be coming your way before long.

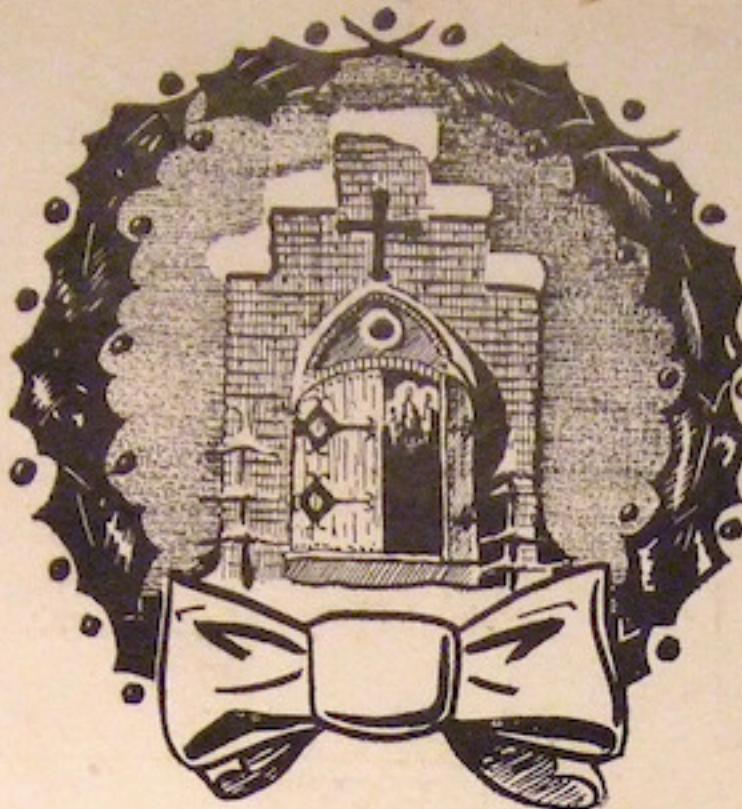

These blank pages offer many possibilities. Not everyone will want to keep a diary or even a journal - occasional notes on the story of his war-time experiences. If you are a writer, here is space for a short story. If you are an artist (some people are) you may want to cover these pages with sketches of your camp, caricatures of its important personalities, whether residents or authorities. If you are a poet, major or minor, confide your lyrics to these pages. If you feel that circumstances cramp your style in correspondence you might write bare letters unmailable now, but safely kept to be carried with you on your return. This book might serve to list the most striking concoctions of the camp kitchen, the records of a camp olympic, or a selection of the best jokes cracked in camp. One man has suggested using the autograph of one of his companions (plus his fingerprints?) to head each page, followed by free and frank remarks about the man himself. The written text might be a commentary on such photographs as you may have to mount on the special pages for that purpose. The mounting-corners are in an envelope in the pocket of the back cover. Incidentally, this pocket might be used for clippings you want to preserve, or, together with the small envelopes on the last page, to contain authentic souvenirs of life in camp.

You might want to do something altogether different with this book. Whatever you do, let it be a visible link between yourself and folks at home, one more reminder that their thoughts are with you constantly. If it brings you this assurance, the Log will have served its purpose.

Yours very sincerely,

WAR PRISONERS' AID OF THE Y.M.C.A.

SING

WHO'S WHO

RUSS FORD (Gerry Barnwell) is well known to Oflag theatre-goers for his Glee Club, which he organized last November, his direction of the recent hit "You Can't Take It With You" and for his numerous appearances here both vocal and dramatic, but his most unforgettable role to most Kriegies was that of the seductive Lorraine Sheldon in "The Man Who Came to Dinner." Russ himself deprecates the performance, preferring to be known for his Glee Club productions — last November's Minstrel, the Christmas show and the beautifully sung "Crucifixion" of Sir John Stainer on Good Friday. Russ, whose home is East Orange, N. J., began his singing career as a boy soprano in New York at the famed Grace Church and later sang with the Newark Civic Opera and the Manhattan Light Opera Singers, at the same time getting a little dramatic experience with the East Orange Little Theatre. He is married and has a two year old baby girl.

LEN VADEN (Joan Barclay) first appeared on the Oflag stage singing in Frank Maxwell's "Rehearsal" last February. More recently he has played the juvenile leads in the one-acters "A Boy Comes Home" and "The Monkey's Paw," and singing the sweater-girl song in the Duckworth-Goddard show "Mostly Music". Len, who is from Dallas, Texas, swears that his part as the hep little ingenue in "Full Swing" is his first and last female role.

CRAIG CAMPBELL (José) is remembered by old Oflagites for his "Night and Day" solo in the Nescafé radio program way back in September of '43, and his solo work with the Glee Club, notably "Massah's in de' Cold, Cold Ground" in the minstrel show. In "Full Swing" he makes his debut as actor and dancer. Craig is from Austin, Texas.

AL BOHNY (Natalia) comes to us via Sol Levy's "Oflag Vanities" in which his snake dance and Hawaiian dance were so convincing that many people thought "she" had been imported from outside the wire. Al, who is from Wyckoff, N. J., has also performed for our enjoyment as drummer with Bob Rankin's band.

FRANK MAXWELL (Denny) produced the first show in this camp on July 4th of last year and has been hard at it ever since, having produced, along with at least a half dozen revues, the first 3-acter to be seen here, "Brother Orchid". He played the lead in this as well, and has since appeared in a large number of plays, including in his repertoire the difficult female role of Gabby in "The Petrified Forest." He is a member of the Glee Club and the Trio and was for seven months Chairman of the Theatre Group. Frank who is married and a native of Jersey City, N. J., was a radio contact man for Bob Ripley.

IN "FULL SWING"

DICK ROSSBACH (Colonel Peabody) has appeared here in such diverse comedy roles as C. E. Friday in "Boy Meets Girl," the harrassed Sheriff Hartman in "Front Page" and 'the incomparable Metz' in the recent revival of "The Man Who Came to Dinner," and in the serious vein, Bill in "A Night at an Inn." His productions include the revue "Applause Comes Later" with Howard Holder and "The Seventh Man," the first dramatic vehicle to play on our stage. He is married, has a baby girl, lives in New York, and was a member of the Yale Dramatic Association buring his four years at New Haven.

FRED SOMMERS (Mrs. Peabody) turned in such a convincing performance as Mrs. Wadhurst in "Hands Across the Sea," that he has been swamped with a succession of similar roles ever since — "Auntie" in the Ebbetts Field skit from "Mostly Music", Mrs. Dexter in "The Man Who Came to Dinner" and finally the Colonel's lady in "Full Swing." His only previous dramatic role was that of a Chinaman in a high school production. His home is in Dayton, Ohio, and he was formerly an English and History instructor and Assistant Coach in the Lebanon High School.

DON WAFUL (1st. G. I.) had his theatrical debut here as co-producer with Bill Hooker of "Your Kind Indulgence" last December and "What's Next?" in March. His own performances have hitherto been purely musical — trombone in the band, member of the trio and soloist in a large number of Variety shows and Swinglands. Don's home is in Syracuse, New York, and he sang with the Syracuse Alumni Glee Club in pre-war days.

CARLOS BURROWS (2nd G. I.) started in the Little Theatre as usher and worked up to producer, which just goes to show. He directed and acted in "A Boy Comes Home" and has been seen here in "The Fourth Man", "Three Men on a Horse", "The Petrified Forest" and "Boy Meets Girl." Carlos, who is from Detroit, Michigan, is at work now on "Pot Luck" — a one-acter to be presented here next month.

JIM KOCH (Smitty) is a veteran of the camp theatre, and has played about everything — a gangster in "Brother Orchid," a grandfather twice, (in "Petrified Forest" and "You Can't Take It With You") and as an old lady in "The Monkey's Paw." His March hit, "The Man Who Came to Dinner" is the first Oflag production to rate a revival! Jim's home is in Erie, Pa.

SYD 'MOUSE' WALDMAN (the Sailor) is well-known for his swash-buckling, Don Juan roles, particularly "Banjo" in "The Man Who Came to Dinner." Being practically indispensable, he has appeared in similar roles in most of the camp musicals. His interpretation of the sailor in "Full Swing" is sure to go down in camp theatrical history. Syd is married and lives in Cleveland, Ohio.
